# *Inter-State Nurseries*

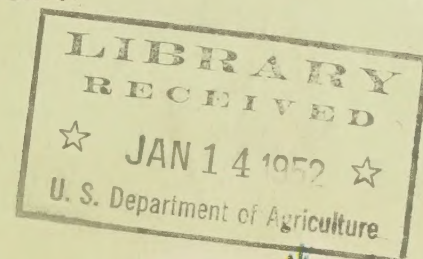

Incorporated

HAMBURG, IOWA

This SPRING 1952 CATALOG from America's Largest Direct-to-You Nurseries  
Will Help Make Your Home More Beautiful, More Fruitful

New for 1952  
All America  
Award Winner  
**VOGUE**

**C 194 VOGUE (P.P.926)** not only is an All America Award Winner for 1952 but has also won numerous other high awards in America and abroad. It brings a new distinct color to the Floribundas, bright cherry-coral. Attractive buds open slowly into perfectly formed, high centered flowers, 3 to 4 inches across. Delightfully fragrant. Makes a husky plant nearly 3 feet tall. Marvelous in a solid bed or a hedge. Perfect for picture windows and with evergreens and shrubs in foundation planting. Vogue is one of the most profuse bloomers introduced

in years. A spray or two makes a bouquet. Attractive in your garden, beautiful in the vase. Cutting the flowers freely will stimulate more bloom. Hardy, long-lived, blooms continuously spring, summer and fall. A perfect combination planted with Fashion (pages 40, 41). Postpaid.

**Each \$2.25, 3 for \$6.00, 12 for \$24.00**

If you want extra heavy specimen plants, add 25c each.

For that  
shady spot

EVERBLOOMING

# Tuberous Begonias

When you see these beautiful Tuberous Begonia flowers, you will wish that you had ordered more. No other flower can equal them for sheer exquisite beauty. They are widely used as pot plants for winter bloom indoors. For a shady spot outdoors nothing else will bring such a magnificent display of color. A bed of them will provide a continuous supply of flowers from early summer until frost. These are the double, Camellia type blooms, even larger than pictured, of perfect form and carried erect on strong stems. The flowers are simply perfect for bowl or saucer use. Used for a luncheon or party, they will make you an envied hostess.

These are choice selected bulbs, imported from Belgium, a size that we have found to be the most satisfactory. With each order we send instructions for growing them both indoors and outdoors. Our customers like these bulbs so well that each spring we sell hundreds of thousands of them.

If you want these bulbs for growing indoors, please mention this when ordering. Otherwise they will not be sent until planting time. They can be shipped as early as January 15th. POSTPAID.

# How to Order

In the comfort and privacy of your own home, you can look through this catalog and select Inter-State's Guaranteed Nursery Stock and Seeds.

1. Write your order for Nursery Stock and Bulbs on the order blank on the back of this page.
2. Write your order for Seeds on the order blank at the back of the catalog between pages 82 and 83.

If you run out of our order blanks you can use any sheet of paper, but be sure to put your orders for Seeds and orders for Nursery Stock on separate sheets of paper. You can mail both orders in the same envelope. This will help us both since our Seeds are handled in a separate department and are shipped at once while Nursery Stock is shipped at the proper planting time *in your locality*.

### 3. Print or Write name, and address on all orders.

In making out your orders please write or print very plainly, giving your full name and complete address, street or rural route. Also list your nearest express office if it is different from your post office as we sometimes ship by *prepaid express* instead of parcel post unless you object. All members of the same family, living at the same address, please order under one name.

### 4. Order all items by catalog number.

This helps us give you better service and helps avoid mistakes. List quantity, variety and size of items wanted.

### 5. You can send us money order, draft or check.

If you send currency or cash, wrap it carefully and register your letter. A money order is a better way to send payment.

**Please do not ask us to ship C.O.D.** The post office and express companies make an extra charge for this service, which makes your cost greater.

### Sales Tax

Customers living in Iowa will add 2% to the amount of their order, which the Iowa Law requires us to collect.

### Mail Your Order Early

On page 3 is a list of premiums you get for ordering early. Be sure to list the premiums you wish on your order so all can be sent in one shipment. When you are through with your Spring Catalog, perhaps your neighbor would like to see it. Thank you.

## Favorite Glad Special

**Elizabeth the Queen**, most beautiful and most popular of all lavenders.

**June Bells**, large, ruffled, snow-white, the florist's favorite white.

**Picardy**, the greatest and most popular pink of all time.

**Spotlight Yellow**, by far the most popular yellow.

**Valeria**, marvelous spikes of glowing red, the florist's favorite red.

### YY 2 All 100 Fine Bulbs for only \$3.45 Postpaid

Here are five of the greatest Glads of all time, each the most popular of its color. When you see them blooming in your garden this summer, and when you use them in bouquets and arrangements, you will know why these are the favorites of the florists and everybody else. Lovely colors on graceful spikes, 6 to 8 glorious flowers open at once and every remaining bud will open perfectly right out to the tip. They are fully described on pages 71, 72. We also assure you that they are even more beautiful than pictured on pages 68, 69 and 70. Large flowers, exquisitely ruffled.

We send you first quality, fine bulbs 1 to 1¼ inches across (diameter). We can offer them at this special price only because we sell millions of Glads. Each variety is labeled and sacked separately. **GUARANTEED TO PLEASE YOU WHEN YOU GET THE BULBS AND ALSO WHEN THEY BLOOM THIS SUMMER.**

## PLEASE HELP US CORRECT OUR MAILING LIST

# What You Should Know about Inter-State Nurseries

L. R. SJULIN ("LES") is responsible for the planning, writing, illustrating and production of the colorful catalogs. All three assist in the production of our nursery stock.

CARL O. SJULIN ("Billy the Nurseryman") prepares our broadcasting programs on radio stations as well as directing our advertising campaign in the magazines and newspapers.

D. L. O. SJULIN ("DAVE") manages the business offices and directs a large staff of trained workers who acknowledge, record and ship your orders at the proper planting time to every state.

**First of All, the Soil**—Ever look at Hamburg on the map? You will notice it is near the center of the United States.

We looked around for a long time, checked many locations, and finally picked Hamburg for one big, overwhelmingly important reason—**THE SOIL**.

If you ever come out to Hamburg, pick up a handful of this dirt anywhere in our 1600 acres and you will see what we mean. It is the kind of soil the geologists call loess (lō-ēs). Plants grown in it develop the strong, healthy root systems that make them thrive when transplanted to your yard or garden. It is a very rare type of soil, occurring in only a few places throughout the entire world.

**And the Climate**—Here at Inter-State we have a good long growing season—time to make the husky plants you want to set out. And our winters are cold enough (down to 20 below zero) to assure hardiness.

**Who Built Inter-State?** The real builders of Inter-State are people scattered over the whole face of America. All the way from the tip of Maine to Southern California, from Puget Sound to the Florida Everglades. People who love their homes and want to make them beautiful. Backyard gardeners. Farmers setting out orchards and berry patches—who wanted the best, because they knew the real profit is always in the best. Growers of roses and flowering plants—some of them wealthy, but most of them people who have had to spend carefully for the beautiful things in our catalogs. These are the people whose faith and support built Inter-State Nurseries.

**How It All Started.** We three brothers as school children, during vacations and on Saturdays, worked for a large nursery. In 1919 we moved to Hamburg and established our own nursery, growing and selling at wholesale to other nurseries. In 1931 we decided that as long as we were growing the stock we should sell Direct-To-You, the final customer. So we issued our first catalog that spring.

**What People Liked.** People liked the things we shipped them. "Those roses you delivered," they would write, "have the most magnificent roots we have ever seen." Then would come another letter telling us how well the plants were blooming—and often enclosing the names of neighbors who wanted our catalog. (We learned the power of the voice that tells good news across the back fence.)

**"That Something Extra."** Our early customers found that they could count on what we told them. They could tell, of course, that we were enthusiastic about our goods. But what pleased them most, we think, was the discovery that what we delivered was generally a little better than they expected. Our customers came to look to us for extra quality; for fair prices; and for alertness in searching out new varieties. They were impressed by our practices—like selling only fruit trees budded from proven bearing trees.

They learned that the big question at Inter-State is, Will this product give the customer the permanent satisfaction he has a right to expect? *Please continue to count on "that something extra" in value and quality.*

This, then, is a short story about Inter-State Nurseries, a national institution the largest of its kind, which has helped make America More Beautiful, More Fruitful. The proudest possessions we have are the thousands of voluntary letters telling about the greater enjoyment, better health, more beauty and the satisfaction of making homes better places in which to live.

## Send Living Gifts

### That Will Be Cherished for Many Years

*For Christmas, Birthdays, Mother's Day, Easter, Anniversaries, For Any Occasion*

Each year more and more people wish to send their friends and loved ones Living Gifts. It is very easy to do.

You select from our catalog whatever you wish us to send. Give us the name and complete address to whom you want it shipped. We will send this party a suitable Gift Certificate giving your name as donor and listing the stock you selected (without prices). It will be shipped at the proper planting time.

*We guarantee satisfaction to you and to those receiving the gifts.*

## AMERICA'S LARGEST DIRECT-TO-YOU NURSERIES

Because we grow and sell direct-to-you more nursery stock than any other nursery, we can sell first quality stock at reasonable prices. Our soil is rated the finest in all America for growing nursery stock. It produces wonderful roots and fine tops. If you have never planted any of our seeds, order some this year. They are guaranteed to grow.

### CENTRALLY LOCATED.

We are located near the geographical center of the United States, with railroad facilities that enable us to ship promptly in all directions, North, South, East and West.

### SALES TAX.

The Iowa law requires us to collect a sales tax of 2% on all orders sent to us BY PEOPLE LIVING IN IOWA. Iowa customers will please add this amount to their orders. BUT PEOPLE NOT LIVING IN IOWA DO NOT SEND ANY SALES TAX.

### IMPORTANT NOTICE

When ordering, please write down the Catalog Number shown by each variety and collection. If you order both Seeds and Nursery Stock, please be sure to PUT YOUR SEED ORDER ON A SEPARATE SHEET OF PAPER. Write your full name and address on both Seed and Nursery orders.

### NURSERY STOCK IS SHIPPED AT PROPER PLANTING TIME

Nursery Stock and Seeds are not shipped together. Seeds are shipped at once. Nursery Stock is shipped at proper planting time. We are equipped so that we can start shipping to southern states early in the year. As the season advances, we keep shipping farther north until in May we are shipping to the most northern states.

**INTER-STATE NURSERIES, INC.**  
**Hamburg, Iowa**

## HELPFUL PLANTING GUIDE

With every nursery stock order, we send Free a 24-Page Planting Guide. It tells in a clear, simple way how to plant so that even if you have never done any planting, you can have success. It tells, also, how to prune, water, care for plants over winter, how far apart to plant, etc.

## WE PAY POSTAGE

Except Large Trees

Please note that most items in this catalog are DELIVERED TO YOU, POSTPAID. Some Fruit and Shade Trees are too large to go by parcel post. They are shipped by express, you pay the express charges. We include some "Extras" to help pay the express. In some orders, there are trees which must go by express and also some stock which would go parcel post. In order to avoid making two separate shipments, we send the entire order by express. For this privilege, we include extra stock which has a greater value than the additional express charges amount to.

## *Inter-State's Guarantee*

1. We guarantee our stock to be true to name. If it proves otherwise, we will replace free or refund the amount you paid us for it.
2. We guarantee our stock to be first quality and to reach you in good, live, growing condition. Examine it carefully upon arrival, and, if you are not entirely satisfied, return it at once and we will replace it free or refund your money.
3. Our stock is carefully handled, and under ordinary conditions should grow for you. But if it does not, owing to the weather and other conditions over which we have no control, we will replace at half price the following season, you to notify us not later than October 1st, 1952, accompanying your report with remittance of one-half original purchase price.

*We want you to be satisfied. If anything is wrong, we want you to write to us.*

Over 500,000 Mums in this field, part of Inter-State's 1600 acres.

The above bags are shipped by freight, truck or express and you pay the shipping charges. K 10 and K 11 should be shipped by freight or truck and the charges on 2 bags is very little more than on 1 bag. Keep a supply on hand. It keeps for years. K 12 and K 13 are smaller size bags and are cheaper by express. If you live beyond Chicago, St. Louis, Little Rock, Oklahoma City and Denver, then we suggest that you buy closer home.

We have two kinds of Peat Moss. One is ACID for using with Azaleas, Blue Hydrangea and other acid-loving plants. The other is Neutral which is used for roses, shrubs, perennials, lawns and general use. It mellows heavy soils and helps bind sandy soils. It is a pure source of humus, needed by most soils. It is weed-free and odorless. Helps soil hold moisture and retain plant food. It is one

of nature's best soil conditioners, activated with beneficial bacteria. Mix ¼ Peat Moss with soil when planting and get better results.

For those who want a smaller quantity by parcel post we offer:

K 15 Contains 1 Bushel PEAT MOSS for \$2.00 Postpaid  
K 14 Contains ½ Bushel PEAT MOSS for \$1.35 Postpaid

This is a special Horticultural All-Purpose Peat which can be used both for Azaleas, Blue Hydrangea and also Roses, Shrubs Perennials, Lawns, etc. It is almost 100% potential humus. Mix ¼ of this Peat Moss with soil when planting. Helps soil hold moisture and is a wonderful conditioner.

K 8 POTTING PEAT MOSS  
5 Quart Sack for \$1.35 Postpaid

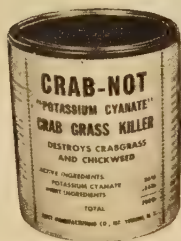

K 9 POTTING PEAT MOSS  
10 Quart Sack for \$2.15 Postpaid

This POTTING PEAT MOSS is especially adapted for mixing with soil half and half for potting indoor plants. It is rich with bacteria and soil nutrients.

## CRAB-NOT KILLS UNWANTED CRAB GRASS

**Contains Potassium Cyanate**

Now you can have a fine lawn. We have found CRAB-NOT to be the most effective, safest and easiest to apply. It does not stain clothing or sprayer, is fire-safe, and leaves no poisonous residue on treated vegetation. It is perfectly soluble in water, and is beneficial to the soil.

No more digging, raking, hair-tearing. Just mix CRAB-NOT with water and spray it on. CRAB-NOT is the latest development in the chemical control of Crab Grass and Chickweed also. CRAB-NOT is relatively non-poisonous, kills crab-grass, both young and old plants, with little or no damage to the regular lawn grasses. It is economical to use. The 16 ounce size covers 2800 to 5000 square feet depending on the amount of crab-grass.

### Postpaid Prices on CRAB-NOT

K 60 4 ounce can, \$1.00    K 62 32 ounce can, \$5.25  
K 61 16 ounce can, 3.10    K 63 6 pound can, 11.45

Full instructions on the can.

## RA-PID-GRO

*For Better Flowers, Better Lawns, Better  
Shrubs and Trees, Better Gardens*

Here is a product that we would like to have everybody use. When planting, you simply put 4 level teaspoonfuls of RA-PID-GRO in 1 gallon of water (8 level teaspoonfuls in 2 gallons water, etc.). Soak the roots of Roses for 3 minutes. They will start much more quickly and bloom much sooner. Soak roots of shrubs for 3 minutes; roots of trees for 4 minutes; just dip Perennial roots for a second or two. Strawberry plant roots are dipped for just a second or two. Raspberry, Blackberry, Boysenberry, Healthberry roots, Grapes, Gooseberries, Currants and Blueberries are dipped for one minute. After dipping, plant right away, keeping all roots protected from sun and wind. When through planting, pour the solution around the newly planted stock. Then every 2 to 3 weeks, use RA-PID-GRO and you will get the very best results. 1 pound makes 22 gallons of quick-acting fertilizer.

It is marvelous for invigorating lawns. For using on the lawn and large areas, we have a special nozzle. It costs \$1.75 Postpaid. It automatically measures out the right amount of RA-PID-GRO. However, you do not need this nozzle for ordinary garden use. You simply put RA-PID-GRO in water in a pail or sprinkling can, then pour it around the stock you wish to fertilize. We realize the soil in most yards is not as fertile as it should be. RA-PID-GRO will overcome this and you will be greatly pleased at the increased growth you get. Try it at our risk. If you are not entirely pleased, your money will be refunded. Instructions on every package.

## IMPERIAL HOME ORCHARD SPRAY

K 80 1 Pound for \$1.90 Postpaid  
K 81 3 Pounds for 5.15 Postpaid

This amazing new home orchard spray contains four of the newest and most potent insecticides and fungicides, all scientifically combined in one Multi-Purpose Spray. You merely add water. One pound makes 12 gallons of spray. It is ideal for home fruit growing as this one spray controls insects and diseases in one spray material. It controls such insects as curculio, codling Moth, Oriental Fruit Moth, Japanese Beetle, Leaf Rollers, Aphids, etc.; and diseases like scab, blotch, brown rot, cedar rust, leaf spot, etc. It also can be used as a dormant spray. Home fruit growing can be made pleasant and profitable. Simple directions on the package. This Multi-Purpose Spray does four things.

1. Contact insecticide killing many insects by contact.
2. Fungicide for diseases.
3. Control for chewing insects.
4. Fumigant for killing certain insects.

## IMPERIAL WARFARIN READY MIX

*The Sensational New Guaranteed  
Mice and Rat Killer*

This is the new rat and mice exterminator that is proving to be so extremely effective. The Warfarin is mixed with a specially prepared bait which the rascally pests like to eat. It is very easy to use, no mixing or messing. It never dries out or cakes. You simply put some in bait cups (like small paper nut cups) and place where the rats or mice can get it. They eat it readily and cannot taste the Warfarin so unlike other exterminators they do not "get wise."

We absolutely guarantee this product to work to your satisfaction or we will refund your money. Keep a supply on hand. It keeps a long time. Can be used any time of the year. Especially effective in the winter because it does not freeze. Simple-to-follow instructions on the package.

## ROSS ROOT FEEDER

**Root Feeding for Im-  
proved Plant Growth  
watering, fertilizing**

K 26 Each \$4.98 Post-  
paid

with one dozen regular fertiliz-  
ing cartridges included

The Ross Root Feeder puts the fertilizer and water directly to the roots. Produces healthier and more vigorous growth. Especially fine for roses, shrubs and trees. You can fertilize and water at same time or you can just water. Needed all season. In the spring it is a quick booster for old and new plantings. In the summer insures food and water during dry spells. In the fall very necessary to put moisture down at the roots to prevent winter damage. Simple, easy to use, nothing to get out of order and lasts for years. For watering, just attach to hose. For fertilizing, place cartridge in the chamber, attach to hose and turn on the water. Push it into ground to desired depth. No water or fertilizer is wasted. Puts it DOWN AMONG THE ROOTS WHERE IT IS NEEDED.

**Keep a supply of cartridges on hand.  
Box of 12 for \$1.00 Postpaid**

K 27 Regular cartridge (8-16-8) is used for most plants, shrubs, roses, trees. \$1.00.

## WONDERFUL, TASTY Rhubarb

It is the earliest spring vegetable. Plant 3 to 4 feet apart, covering the crown with 2 inches of soil. Postpaid.

**A 65 Chipman's Canada Red**—This new variety has large stalks that are red from top to bottom, even the flesh is red. It does not lose this rich color in cooking. Juicy and sweetest of all, takes less sugar. Seedless. Skin is so tender you need not peel it. Very productive, you can pull the stalks all spring and summer.

**Each 85c, 3 for \$2.35, 6 for \$4.25**

**A 61 Red MacDonald**—A tremendous producer of giant size stalks all spring and summer. Stalks are 18 to 24 inches tall, many half as thick as your wrist. Seedless. It is 2 to 3 times larger than common rhubarb, far more tender, delicious and sweeter. Its bright red skin and tender flesh makes very attractive and fine tasting sauce and pies. Skin so tender it needs no peeling.

**Each 75c, 3 for \$1.95, 6 for \$3.45**

**A 62 Ruby**—Stalks are smaller than Canada Red or MacDonald but there are more of them. Skin is red and flesh is red. Very fine flavor, very tender and one of the sweetest of all rhubarb. Very prolific yielder. Some prefer these smaller stalks. They can be used early spring to late summer. The more you use, the more it produces. Seedless.

**Each 75c, 3 for \$1.95, 6 for \$3.45**

Red Lake  
Currant

## FLAVORFUL

### Currants

✓ **A 148 Red Lake**—This new variety is rapidly replacing the older kinds. We think that it is the most productive, the best quality of all currants. Pictured actual size, the berries are very large, the clusters are long and filled out right to the end. The color is a bright glossy red and makes the most beautiful and finest flavored jelly. Even after fully ripe, they will hang to the bush and not drop off as others do. They grow in ordinary garden soil in all the northern states. Plant them 3 to 4 feet apart. Please read NOTICE BELOW. Almost every home has room for some currant bushes. They are attractive in themselves and besides produce this fruit which is so fine for jelly. They bear young and regularly. Our big 2-Year No. 1 plants will start bearing next year after planting. **Postpaid.**

**Each 65c, 3 for \$1.65, 6 for \$2.65**

✓ **A 150 Red Cross**—Next to Red Lake, we consider this the best red currant. A very heavy producer of large, bright red berries which make wonderful jelly. Thrives in all northern states in ordinary garden soil. The plant itself is attractive enough to plant as a shrub. Our husky 2 Year No. 1 Plants generally start bearing the next year after planting. Please read NOTICE BELOW giving list of states into which we ship currants and gooseberries. **POSTPAID.**

**Each 50c, 3 for \$1.35, 6 for \$2.15**

#### IMPORTANT NOTICE

On account of federal regulations we ship Currants and Gooseberries only to the following states—**Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Missouri, Nebraska, North Dakota, Oklahoma and South Dakota.** If you do not live in these states, please do not order Currants or Gooseberries.

## HUGE, TASTY

### Boysenberries

## IMMENSE SIZE • DELICIOUS FLAVOR • HEAVY BEARER

✓ **A 140 Thornless Boysenberry**—We have seen berries fully 2 inches long. The fruit ripens over a period of almost 2 months. Eat them fresh for weeks, use them for pies, sauce, preserves and fruit juice. Just like the original Boysenberry but absolutely Thornless. They are almost seedless and a very deep maroon, almost black color when ripe. Plant 8 to 10 feet apart each way. In cold sections it requires winter protection. Postpaid.

**Each 30c, 5 for \$1.25, 10 for \$2.25, 25 for \$3.95**

## FINEST QUALITY

### Gooseberries

Pixwell Gooseberries

✓ **A 159 Pixwell**—This new gooseberry is by far the best we have ever grown. It is a tremendous bearer of large, fine quality berries. Moreover they hang down on the underside of the branches so they are very easy to pick. The plant also is not nearly as thorny as other kinds. It bears very young, the next year after planting. The berries pictured actual size averaging better than 1/2 inch. Color is light green, turning pink when fully ripe. After growing Pixwell, you will not want the other kinds. Thrives in all northern states. Plant 3 to 4 feet apart. Read NOTICE BELOW. **Postpaid.**

**Each \$1.00, 3 for \$2.85, 6 for \$5.25**

✓ **A 158 Champion**—We consider this the best gooseberry, next to Pixwell. It is a heavy bearer. Easily picked as the berries hang down on the underside and has only a few thorns.

Durham

## Red Raspberries

Red Raspberries are delicious to eat fresh, for pies, shortcakes, sauce, jam, juice and freezing. Plant them 3 to 4 feet apart in the row and the rows 6 to 7 feet apart. Very hardy, they do best in the northern and central states. Ten plants will produce many berries but if you really like them as most people do, then set out 25 or more if you have the room. Any surplus can be easily sold at a good price. Our 2-Year Bearing Age plants WILL BEAR THIS YEAR. Our plants are doubly inspected and extra fine.

### DURHAM NEW EVERBEARING RED RASPBERRY WILL BEAR THIS SUMMER AND FALL

A 85 **Durham** is a new red raspberry which is a true everbearer. In early summer it produces a large crop on the old canes, then in only a few weeks the new canes start bearing and BEAR CONSTANTLY to freezing. The fruit is medium to large, attractive red color, firm, good quality, especially fine for preserves and freezing. The plant is a healthy, vigorous grower, very hardy and tremendous producer. The canes grow 3 to 3½ feet tall, just the right height for picking. Every plant we send out WILL BEAR THIS SUMMER AND FALL. Of course the 2 Year plants will produce more than the 1 Year. Every home has place for a few of these. They soon pay for themselves.

## TOMS RED—The New Red Raspberry

A 90 **Toms Red (P.P. 779)**—Mr. Toms, the originator, noticed that this new hybrid was very disease-resistant and an extremely heavy producer. The canes grow only 3 to 4 feet tall but they have many fruiting branches. The fruit is a bright red color, fine flavor, firm and cannot be picked green because it does not loosen until ripe. It is not quite as large as Latham but is better quality and a heavier bearer. Ideal for home use because it does not ripen in just a few days but ripens over a period of a month to six weeks, from early July to mid-August.

Toms Red is a new variety so we do not know how good it really is until it has been planted and fruited in many different places. It may well prove to be the finest of all. You plant some and if they should not be satisfactory you may select from our catalog, without cost, whatever you want equal to what you paid us for the Toms Red plants. The government patent office judged it different enough to be worthy of a patent. We like it so well that we bought the exclusive rights and ownership from Mr. Toms. Plant some at our risk and it will not be long until you yourself will know what a wonderful flavor they have and how heavily they bear.

## SWEET, JUICY Black Raspberries

They ripen after strawberries and just ahead of red raspberries. Plant them 3 to 4 feet apart in the row and the rows 6 to 7 feet apart. You can plant a row across the back of your garden. Our Planting Guide, sent with all orders, gives you easy-to-follow instructions about taking care of them. If you make a mulch of lawn rakings or a mixture of straw and leaves and put around the plants in the spring, you will have almost no weeding and hoeing to do and besides this mulch helps hold moisture so the plants produce better. They do fine in part shade, especially afternoon shade.

**A 93 New Logan**—Ripens a week or more before the others. Plant some so you will have those delicious first-to-ripen raspberries. A heavy bearer, the fruit is large and high quality. Bears well even on sandy soils. POSTPAID.

### BRISTOL BLACK RASPBERRY

**A 94** We believe this new variety, Bristol, is the best midseason black raspberry. A tremendous producer of large, luscious, glossy jet-black berries even in thin soils where other varieties are failures. The delicious berries are not only sweet and juicy but have an unusually rich black raspberry flavor. They are almost seedless which makes them especially fine for making juice and for freezing. We receive reports from over a wide territory telling of the success of Bristol even in southern states where other varieties fail. Set out a large patch and enjoy the fresh, home-grown berries, so much better than those you buy. POSTPAID.

## NEW EXTRA CHOICE GRAPES

Many homes have Concord grapes only. You do not know what you are missing. You should try some of these new kinds. They are just as hardy as Concord. They bear regularly and heavily and they have an entirely different flavor.

A 108 **Caco**—My, such great big red grapes, so rich and sugary with an unusually sweet flavor. A strong grower, bears young, heavily and regularly.

A 110 **Portland**—Ripens very early, a few days before Fredonia. Fruit is large, attractive amber-white. And it has the most delicious, rich, spicy flavor. Bring in a bowl-full and you will have to go back for more and more. Vigorous and productive.

A 112 **VAN BUREN**—This new grape ripens a few days before Portland. Fruit is large, blue-black, sweet, juicy, delicious. Hardy and productive. It is fruiting for us and we rate it very highly. Plant at least one for the first ripe grapes of the summer.

A 10 **Sioux** is a new variety originated by the Cheyenne Horticultural Field Station. It was created especially for Wyoming, the Dakotas, Montana, western Nebraska, northern Colorado, those sections where other varieties of strawberries will not live. Here at Hamburg, it is a very large berry, bright red and very sweet. It bears heavily. Planted right along with other kinds, we consider this one of our very best. Try some, even if you live where all kinds do well. We especially want the folks who have been having trouble growing strawberries to plant Sioux. It is bred to stand "tough-going." A mulch of sawdust, ground corn cobs, lawn rakings, fine straw, etc., helps hold moisture and keeps berries clean. Self-pollenizing. POSTPAID.

THIS SUMMER AND FALL!

Every home should have a strawberry bed. These Everbearers WILL BEAR THIS SUMMER AND FALL. Tests have shown that they will bear the most if planted 12 inches apart each way in beds of 3 rows. Fertilize the ground with a complete fertilizer like Vigoro, Milorganite, etc. Then mulch the entire bed with

sawdust, ground corn cobs, lawn rakings, fine straw, etc. Cut off all runners. In dry weather water thoroughly every 10 days. You can get as much as 12,000 quarts or more per acre. Let your boys and girls make a bed and sell the surplus for their spending money. Here they sell readily at 50c per quart.

The Sensational New Everbearer  
**RED RICH**

Large Size, Rich Red Color,  
Productive, Finest Flavor

A 8 **Red Rich** (P.P. 993)—Good reports from coast to coast are now coming in on this new everbearing strawberry. The big, beautiful berries make you hungry just to look at them. When you eat them, you will agree that they certainly have that sweet delicious real strawberry flavor. Firm, red all the way through and so sweet that you need but little sugar. Perfect for preserves and freezing because they hold their color. Planted this spring, they will BEAR THIS SUMMER AND FALL. Next year you will get berries spring, summer and fall. The plants themselves are so attractive with their abundance of large, deep green leaves, that some folks who do not have a fruit garden, set the Red Rich plants in the perennial border. You get good foliage plus the blossoms plus the wonderful fruit. POSTPAID.

## Streamliner

A7 Never has a new strawberry become so popular as quickly as Streamliner. The reasons are simply that it produces so heavily the big red berries of such fine flavor. PLANTED THIS SPRING IT WILL BEAR THIS SUMMER AND FALL. Then next year it will produce a tremendous crop in June and after a short time it will start in again and keep on right up to freezing. The Berries are Big, Red, Sweet and DELICIOUS. Streamliner is self-pollenizing so can be planted alone. Eat them, preserve them, freeze them. We want to repeat Streamliner has that rich, sweet real strawberry flavor.

### THE GREAT NEW EVERBEARING STRAWBERRY

A9 It is a tremendous bearer. YOU WILL GET A BIG CROP THIS SUMMER AND FALL. And next year it will bear spring, summer and fall. The berries are big, firm and bright red and red all the way through. Serve them with cream and sugar. For preserves and freezing they are excellent, because they hold their shape and color. It is mighty fine when you can go out in your garden and pick fresh ripe delicious strawberries (saves on the grocery bill too) spring, summer and fall. Strawberries have always been considered the most delicious of all fruits. Now it has been discovered that they are also very healthful. A couple of rows across your garden will give you lots of berries. Superfection is self-pollenizing.

In the Iowa State College testing garden at Ames, SUPERFECTION was the heaviest yielder of all Everbearers tested. It produced at the amazing rate of 11,814 quarts per acre during the 1951 season. This was for plants planted in the spring of 1951. They were set 12 inches apart each way in beds of 3 rows. The runners were cut off all season. The beds were summer mulched with ground corn cobs, fertilizing the ground first. You can mulch with lawn rakings, fine straw, saw-dust. ALMOST 12,000 QUARTS PER ACRE THE VERY FIRST YEAR PLANTED. At 40c per quart worth almost \$5,000.00.

# Morrison...

## NEW GIANT BLACK RASPBERRY

**A 91** Morrison Black Raspberry is a new variety that has three very distinct points of superiority.

- 1—Berries are immense size (much larger than pictured).
- 2—Very fine flavor, almost seedless.
- 3—The plants are healthy, vigorous growers and produce tremendous crops.

It ripens a little later than Cumberland. The berries are immense size, glossy black, so attractive that they sell on sight. The fruit is almost seedless, is firm, very sweet, juicy and most delicious flavor. Extra fine for eating fresh and for sauce, jams and pies. Plant some Morrison this spring, for home or commercial use. When it starts fruiting, you will wish you had planted more.

## Big Delicious Apricots GROW FRUIT LIKE THIS IN YOUR OWN YARD

Golden  
Giant  
Apricot

Ripening right after cherries and before the peaches, apricots are one of the most delicious fruits especially when picked fully ripe. They are all free-stone, fine for eating fresh, sauce, preserves, pies and freezing. Plant 20 feet apart.

**F 25 Golden Giant** (Plant Patent No. 1,053). This is the finest Apricot we have ever seen. The size is immense, 2 inches across and over 2 inches long, even larger than pictured. The color itself is appetizing, golden-orange with a light blush. For flavor we simply tell you that it is the finest you ever ate, sweet, juicy, tender, delicious. Even if picked fairly green, it develops this fine flavor whereas ordinary apricots when picked green taste insipid. It is a tremendous bearer. Has missed only 2 crops in many years at Grand Junction, Colorado, the home of the originator, Dave Moore. It has borne there when all other varieties failed. It makes a large attractive tree so you can plant it in your yard if you are short of room. For eating fresh, for canning, for preserves, for freezing, **GOLDEN GIANT** is in a class by itself. In apricot fruit districts we recommend that orchardists try some. We believe they will find this is just what they have been looking for. Its huge size, attractive color, fine flavor tops the market. Golden Giant is **SOLD ONLY BY INTER-STATE NURSERIES**. Order today to make sure that you get yours this spring.

# Dwarf Fruit Trees — low-growing — easy to pick — full size fruit

Everybody likes home-grown fruit. It tastes better and saves so much money. But many yards simply are not large enough to permit growing the ordinary large fruit trees. After years of effort we are now able to offer a full line of fruit trees for THE SMALL YARD and for the larger yard too, as they are so much easier to take care of. These Dwarf Trees do not grow any larger than a large shrub. They are just as hardy as the larger trees. THEY BEAR VERY YOUNG, OFTEN THE NEXT YEAR AFTER PLANTING. The fruit is generally larger than on the big trees. Moreover these Dwarf Fruit Trees are ornamental. They have beautiful flowers in the spring, the trees are shapely and you get the delicious home-ripened fruit besides.

These grow scarcely taller than your head. Fruits even larger than on the regular large-growing trees. Often bear the next year after planting. Plant two varieties so they can cross-pollinize and thus produce more fruit. Plant 10 feet apart.

**D 84 Bartlett.** The favorite summer pear. It does not grow quite as dwarf as the other two.

**D 85 Duchess.** This variety does especially well as a dwarf, producing giant size delicious fruits in the fall. Very fine quality, juicy, tender. Heavy bearer.

**D 86 Seckel.** Called the "Sugar Pear," because it is so sweet and delicious. The fruit is not as large as Duchess. Ripens in late summer. Heavy bearer. Blight resistant.

**DD 89 1 Duchess and 1 Seckel** 3 to 4 feet **Both for \$4.15 Postpaid**

These are like the regular peaches except they are grown on a special root which makes a semi-dwarf tree, about half the normal size. The fruits are as large or even larger than the regular trees. These dwarf trees start bearing generally next year after planting. You can have bushels of home-grown, tree-ripened delicious peaches right in your own yard.

**D 70 Polly.** Huge, free-stone, the finest quality white-meated peach. Hardest white.

**D 71 Red Haven.** Early, free-stone, yellow meated. Rapidly becoming the most popular early peach.

**D 72 Sungold.** Huge, free-stone, yellow meated of exceptional quality. Hardest yellow. We rate this our finest peach.

This is exactly the same as the regular Golden Giant on page 16 except it is grown on a special root which dwarfs the growth, making a tree about half the size of the regular Golden Giant. But the fruit is just as large or even larger and the tree starts bearing earlier. Bears young, bears heavily and you will not know how delicious apricots are until you have tasted home-grown, tree-ripened Golden Giant. Plant 10 feet apart.

Grown on a special root which makes a semi-dwarf tree about half the size of a regular plum tree. The fruit is just as large or larger. Also these dwarf trees often start bearing the next year after planting. Plant more than 1 variety of plums so they can cross-pollinize and thus bear more heavily.

**D 60 Allred.** This is a very attractive ornamental tree as the foliage is a striking purple-red spring, summer and fall. In the spring it is full of red flowers, followed by the large, purple-red fruits, free-stone and delicious quality. A regular bearer. Hardy to central Iowa.

**D 61 Red Coat.** Very hardy. A very heavy, annual bearer of large, prune-shaped, bright red, free-stone fruits, especially fine for canning.

**D 62 Stanley.** This new prune-type plum is rapidly becoming the most popular of all. Large, dark-blue, free-stone, with firm, sweet, delicious yellow-meated fruits. Hardy to central Iowa.

**D 63 Superior.** Very hardy, a tremendous annual bearer of very large, red plums of delicious quality. A very good pollinizer for other plums.

## Dwarf Apple Trees

**FULL SIZE FRUIT, EASY TO PICK, NO LADDER NEEDED**

At last we can offer a hardy dwarf apple tree which grows no larger than a large shrub. They start bearing young, often next year after planting. The fruit is full size, often even larger than that produced on the big trees. You can pick them from the ground. Almost every yard has room for at least one of these trees. They are ornamental as well as fruitful. You can grow your own apples in your front or back yard even if it is small.

**D 7 Early Red Bird,** best red summer apple.

**D 1 Yellow Transparent,** popular summer apple.

**D 2 Wealthy,** popular fall apple.

**D 3 Yellow Delicious,** America's favorite yellow apple.

**D 4 Solid Red Delicious,** America's favorite red apple.

**D 5 Bright Red Jonathan,** the midwest's favorite.

**D 6 Delcon,** new variety originated by the Missouri State Fruit Experiment Station. Extremely heavy bearer. The fruit resembles the Solid Red Delicious and many think even better flavor. Delcon is rather a dwarf tree so by growing it on Clark Dwarfing stock we should have a really dwarf tree, more dwarf than the other 5 varieties. We expect this to become the leading Dwarf Apple.

# FINE, NEW McClain Cherry

F 82 We believe this amazing McClain cherry is one of the finest new varieties introduced in many years. The fruit is large, a rich red color, and delicious flavor. It ripens about the same time as Montmorency. For eating fresh, for pies, sauce, preserves and freezing it is unsurpassed. It bears very young, generally the very next year after planting. Moreover it bears regularly and very heavily. The fruit is easy to pick because the tree does not grow as tall as other cherries. Wherever it has been tried, the reports are enthusiastic. Will grow right in your lawn, giving you lovely flowers, attractive foliage and delicious, healthful fruit for many years.

## 6-in-1 Apple Tree

F 72 This 6-in-1 Apple Tree has six different kinds of apples, all on one tree. They are six of our best, most popular kinds, giving you fruit from early summer well into the winter.

**Yellow Transparent**, for summer.  
**Wealthy**, for fall.  
**Yellow Delicious**, for late fall.  
**Solid Red Delicious**, for early winter.  
**Bright Red Jonathan**, for the holidays.  
**Winesap**, for winter.

Yellow Transparent and Yellow Delicious start bearing young, followed by Wealthy and soon all are bearing, all on the same tree. This is the one tree for those who want several kinds of apples, but do not have much ground available. With its flowers, rich green foliage and fruit, it is attractive enough to plant in front yard.

**F 83 Black Giant**—Created by Luther Burbank, this is considered the hardest Black Sweet Cherry. Tree is productive. The fruit is large, purplish-black, firm, sweet, delicious flavor.

**F 76 Black Tartarian**—This is the great big, almost black sweet cherry which everybody likes so well. Very dependable and widely planted. Ripens in late June. Very fine for eating fresh, canning and freezing. Plant a Napoleon beside it so they can cross-pollenize and both produce much more.

**F 84 Napoleon (Royal Ann)**—Most popular of its color, yellow with a pink blush. Fruit is large, sweet and delicious. Fine for eating, canning and freezing. Widely used for making Maraschino cherries. Ripens in early July. Good pollenizer for Black Tartarian and Black Giant.

**F 78 Yellow Glass**—The hardest of all sweet cherries. It makes a large, handsome tree. The fruit is large, bright yellow with the real sweet delicious flavor.

**F 79 Early Richmond**—This is the popular early cherry so eagerly awaited by millions of kids for the first fresh cherries. Mother also wants some for the first fresh cherry pies and cobblers. In June it is simply full of the bright red, juicy, delicious fruit. Starts bearing young. Does fine in the small garden and is the hardest of the cherries.

**F 80 English Morello**—The last cherry to ripen, 2 to 3 weeks after Montmorency. Fruit is large, almost black when fully ripe. The flavor is sprightly acid, making the fruit ideal for whole pickles. Also good for sauce, and makes wonderful cherry cider. Bears very young and very heavily.

**F 81 Montmorency**—This is the most popular of all cherries, largely because it is the best of all for canning. And it tastes mighty good to eat fresh right off the tree, especially when fully-ripened, home-grown. The fruit is large, firm, very fine flavor. Ripens about 10 days after Early Richmond. The tree is a rather short grower so the fruit is easily picked. Bears heavily and regularly. Be sure you have at least one tree in your yard. It is handsome enough that many people plant it in their front yard. If you have room for but one cherry, then we recommend this. You simply cannot beat it for eating fresh, for canning, for freezing, for pies, cobblers, preserves.

**F 77 Kansas Sweet**—This cherry comes from Kansas. The fruit is large, dark red, firm and most delicious sweet flavor. It is a hybrid, a cross of some sweet variety and probably Montmorency. A vigorous grower and bears well. If you have had trouble growing sweet cherries, try this.

# Polly FINEST WHITE PEACH

**Hardy, Delicious, Free-Stone, Heavy Bearer**

**F 2** Those who have tasted Polly say that it is the finest flavored peach they ever ate. The fruit is very large, blushed, free-stone. The flesh is white and has that real sweet delicious peach taste. For sauce you simply cannot equal it for flavor. Also makes fine preserves. Polly is best for home use and nearby markets. Polly was introduced by us in the spring of 1934. It was originated by the Iowa Experiment Station. Thoroughly tested for many years, it has repeatedly withstood 15 degrees below zero. It starts bearing young and bears regularly.

## HARDY YELLOW PEACH

**Very Large, Free-Stone,**  
**High-Quality, Attractive**

**F 1** Fresh, tree-ripened peaches. You can grow them yourself. Sungold is very large, free-stone, beautifully blushed. Flesh is firm, golden yellow, full of juice, fine quality. Extra good for canning. Ripens with Elberta. Heavy, regular bearer. Tree is well-branched, stocky, rather low-growing making it easier to care for and pick. A commercial peach because it is so firm and colors before ripe and ships well. Self-pollenizing. Very hardy. It has been shipped to every section where peaches are grown. Fine reports come from many states. In Grand Junction, Colorado it brings the highest prices. Orchardists should make a test planting. This may be just the peach you are looking for. It certainly belongs in every home peach planting. The price of just one bushel of fresh peaches will pay for several trees. We are making these new low prices so thousands more can find out what a great peach Sungold is. Bears young and heavily and often bears when other varieties are damaged by cold weather.

# ENJOY LUSCIOUS, TASTY *Peaches* GROWN BY YOURSELF!

## Plant several of Inter-States dependable trees this spring!

### They bear young and heavily.

### All are budded from bearing true-to-name varieties.

The peaches are listed in their order of ripening. Tulip ripens here in early July—Elberta at the last of August. Peaches need but little room, easy to grow. Our Iowa-grown, budded trees are hardy and bear young. Plant them 15 to 20 feet apart.

**F 12 Tulip**—This new variety from the Missouri State Experiment Station ripens in early July, almost 2 months before Elberta. It is by far the best extra early peach we know. Handsome fruits are rich red and orange-gold and this color develops before ripening so it ships well. Should make a fine commercial, bringing high prices. The flesh is golden yellow, solid, firm, with a wonderful sweet delicious flavor, semi-freestone. Medium-large size just right for eating fresh, canning, preserves and freezing. Almost fuzzless. Do not fail to plant Tulip. You can have ripe peaches around the Fourth of July. Again we want to repeat. This is a very high quality, extra early peach. A heavy, regular bearer.

**F 14 Red Haven**—This new variety is rapidly becoming the leading real early yellow peach. The fruit is large, almost a solid red like a Jonathan apple. The yellow flesh is firm, sweetly delicious, high quality. Free-stone. A hardy, vigorous grower and very productive.

**F 8 Vedette**—A new early variety from Canada. Large fruits yellow with blush, firm yellow flesh of fine quality, free-stone. Hardy.

**F 11 Fairhaven**—A new variety that ripens a few days earlier than Hale Haven. It is very productive, hardy, often bearing when other varieties do not. Fruit is large, yellow with red cheek. Flesh is yellow, firm and fine flavor. Free-stone. Self-pollenizing. All the "Haven" peaches have proven superior. This one may be still better.

**F 5 Champion**—Free-stone. Large creamy-white with red cheek. Flesh is white, juicy, sweet and highest quality. A heavy, regular bearer. Very hardy. Excepting Sungold and Polly, this is probably the hardest peach we grow.

**F 9 Hale Haven**—Free-stone. This fine new peach is rapidly overtaking Elberta. A heavy producer of large, yellow peaches of high quality. Hardy.

**F 6 Early Elberta**—Free-stone. Yellow with blush. Fruit is large, yellow flesh, firm, juicy, delicious. Hardy. Increasing rapidly in popularity.

**F 10 J. H. Hale**—Free-stone. Very large, golden yellow, flushed red with fuzzless skin. Flesh is yellow, solid, tender, very high quality. On the market it always brings a higher price. Plant with other varieties for pollinization to increase yield.

**F 15 Yellow Cling**—This is a new variety that we selected because the fruits were only medium size, just right for pickling whole and for canning. The yellow flesh is firm, very delicious flavor. Ripens just before Elberta. A heavy bearer. Hardy.

**F 7 Elberta**—This is the most popular of all peaches and is planted wherever peaches are grown. Large handsome fruit, yellow with blush. Flesh is yellow, firm, good quality, free-stone.

# Pears

**DELICIOUS — EASY TO GROW — DO WELL PLANTED  
IN SOD — RIGHT IN YOUR OWN YARD!**

Pears grow in any ordinary soil, even in sod, right in your yard. Plant 20 feet apart. Two trees, alike or different varieties, planted near each other so they can cross-pollenize, will both produce more heavily than if planted alone. To tell when Pears are ready to pick, place the palm of your hand under a Pear, raise it gently and if the stem snaps off easily from the limb, they are ready to pick. Then put them in a cool, dark place to ripen and you will have Pears of the highest quality.

We can also furnish **BALDWIN, DUCHESS, GOLDEN SPICE, GORHAM, LINCOLN, RICHARD PETERS, SURECROP** Pear Varieties. Baldwin, Richard Peters and Surecrop are highly resistant to blight. Same prices as others. Every home should grow their own pears.

**F 90 Bartlett**—Our most popular summer Pear. Fruit is large, yellow with blush, juicy, sweet, high quality.

**F 93 Bierschmidt**—A new summer Pear ripening a few days after Bartlett. Originating in Northern Iowa, it is hardier than Bartlett. Good bearer. Highest quality. Blight resistant.

**F 96 Seckel**—Called the Sugar Pear because of its sweet, delicious flavor. Fruit is not large but the highest quality. Ripens in late summer. Bears young and heavily. Blight resistant.

**F 92 Kieffer**—The most widely planted winter Pear. A healthy, hardy and vigorous grower which bears young, heavily and regularly. The fruit is large and fills countless jars every season. Pick the fruit when it starts to color and let it ripen in a cool, dark place. Then it is delicious. Blight resistant.

**F 95 Patten**—Originating in Iowa, this is a very hardy Pear which can be planted in cold sections like northern Iowa, Minnesota, etc. Ripens in August. The fruit is large, yellow with blush, juicy, sweet, luscious flavor. Good bearer. Very blight resistant.

**F 91 Douglas**—A fall pear that bears very young and regularly. Blight resistant.

**F 97 Waite**—Originated by the United States Department of Agriculture. We think this winter pear will replace Kieffer in time because of its finer quality. A good eating Pear, heavy bearer, blight resistant, hardy, fine for canning.

**It's New  
Seedless  
Coreless  
Attractive  
Large Size  
Fine Flavor  
Productive  
Vigorous  
Hardy**

**F 88 Cope's New Seedless Pear**—A New Fruit Sensation. A Pear That Has No Seeds and No Core. In addition, it has everything else that you could ask for in a pear; great producer, excellent quality, size, beauty, vigor and hardiness. The fruit is large, a beautiful golden-yellow with a blush. The flesh is tender and sweet, juicy and delicious. Fine to eat fresh and ideal for canning as it has no seeds, no core.

## Bears Young—A Delicious Summer Pear

The original tree began bearing when 3 years old, and at 5 years of age it produced 3 bushels of perfect fruit. It ripens about 10 days after Bartlett and ripens evenly without any softening at the center. It is a self-pollenizer but will produce more fruit if two Cope's trees are planted near each other. If there are other varieties of Pears close, so they cross-pollenize, then Cope's may have a few small immature seeds.

# INTER-STATE'S OUTSTANDING Plum VARIETIES!

## BEAR YOUNG - BEAR HEAVILY - DELICIOUS

Scarcely any fruit has been improved as much in the past few years as has the plum. Bears younger and more heavily. The fruit is larger, with a wonderful flavor. We offer below the finest, outstanding varieties. Plant Plums 12 to 15 feet apart, in a group so they can cross-pollinize, thus greatly increasing the crop.

**F 110 Allred Plum**—This new plum was named Allred because the tree, the foliage, the flowers and the fruit are red. The bark and foliage are a purple-red, the flowers are a gorgeous brilliant red and the fruit is red inside and out. Freestone and fine quality. Bears regularly. It is attractive enough to plant in your lawn but of course will bear more fruit if planted near other plums. Hardy to Central Iowa.

**F 102 New Damson**—This is an improved strain over the ordinary Damson. The blue plums are medium size of finest quality. Free-stone. A heavy regular bearer. Ripens in August. Hardy to northern Iowa.

**F 103 Green Gage**—The sweetest eating and canning plum, it is just full of sweet, sugary flavor. Large, greenish-yellow fruits, freely produced. Free-stone. Ripens in early September. It is not suited to extremely cold sections like northern Iowa.

**F 104 Pipestone**—A new Plum from Minnesota. The fruit is immense size, the largest plum we have ever grown. It has a very attractive color, red with a golden blush. The flesh is yellow, juicy and excellent quality. Fine for eating and cooking. Bears very young and heavily, ripening in August. Very hardy.

**F 105 Red Coat**—This also comes from Minnesota and is one of our best plums for canning. It is perfectly free-stone, the stone falling right out when you cut the fruit in half. The fruit is large, prune-shaped, a bright red color, good quality especially fine for canning. A healthy vigorous grower that bears young and every year. Ripens in August. Very hardy.

Stanley

**F 106 Stanley**—A new prune-type plum from New York that is rapidly becoming the most popular of all plums. Large, dark-blue, prune-shaped fruits. The rich yellow flesh is firm, sweet and delicious flavor. Exceptionally fine for eating fresh and canning. A heavy, regular bearer. Ripens in early September. Free-stone. Hardy up to central Iowa. Exceptionally fine.

**F 107 Superior**—This fine plum should be widely planted. The fruit is large, attractive red color and a rich sweet flavor. It bears very heavily, every year. Ripens in early August. Very hardy. Fine for eating and canning. A good pollinizer for other plums.

**F 108 Toka**—Originated by Prof. N. E. Hansen, the famous plant genius from South Dakota, this is undoubtedly the richest flavored of all plums—a sweet, somewhat spicy and tangy flavor that is unequalled. The fruit is quite large, a beautiful apricot color with very firm, yellow flesh. Perfect free-stone. Fine for eating and canning. Ripens in August. Very hardy. It is also a good pollinizer for other plums.

## BACK YARD SPECIAL

### SUMMER APPLES

**F 31 Anoka**—Generally bears next year after planting. Fruit is yellow streaked red. Ripens in August but can be used a month earlier.

**F 32 Beacon**—This new apple is much better than Duchess. The fruit is large, a solid bright red of very fine quality. It ripens in August but can be used weeks before. It is very hardy and extremely productive. Bears young.

**F 35 Early Red Bird**—This fine apple ripens a week before Yellow Transparent. It is the best real early red apple we know. The fruit is large, bright red, good quality for both eating and cooking. Hardy and a heavy bearer.

**F 33 Red June**—Everybody likes this early red apple.

**F 37 Yellow Transparent**—The favorite early yellow apple. Ripens in July. Bears young, heavily and every year. Fruit is medium size, tender, juicy. Fine flavor for eating and cooking.

### FALL APPLES

**F 34 Maiden Blush**—An old favorite. Yellow with blush, mild flavor.

**F 42 Wealthy**—By far the most popular fall apple. It ripens in September but can be used weeks earlier. Fruit is large, red striped, with tender, juicy flesh of fine quality. Very hardy. Bears young and heavily.

### CRAB APPLES

**F 62 Dolgo**—Every year just full of bright red fruit which makes the finest tasting and best looking jelly. Tree itself is attractive enough to plant in your lawn as a flowering crab. Very fine for pickling.

**F 65 Whitney**—You can eat it fresh just like an apple. It is not tart. The fruit is medium size, red striped, fine quality. Makes wonderful apple butter and jelly. Bears young and heavily.

### WINTER APPLES

**F 48 Grimes Golden**—For many, many years this has been a very popular yellow apple. The fruit is large and highest quality.

**F 49 Hawkeye Greening**—An attractive greenish-yellow, very large in size and good quality. The only apple we know that is good to eat fresh from the tree, and is just as good in late winter, even when kept in an ordinary cave or cool cellar. Very hardy, tremendous bearer. Very fine for pies, sauce, baking.

**F 51 Jonathan**—Almost everybody knows it and likes it. A fine bright red apple of highest quality with crisp, yet tender flesh. Juicy and full of snap.

**F 52 Jonathan, New Bright Red**—This is like the apple above but it colors a couple of weeks or so earlier and has a richer color. One of America's greatest apples.

See Page 7 for the New All-Purpose Home Orchard Spray. Easy to use, just mix with water. Protects against diseases and insects.

**F 56 Red Delicious**—This is the original Delicious which originated in Iowa and has been planted from coast to coast for its superb quality and mild juicy flavor.

**F 60 Solid Red Delicious**—Considered by many to be the finest of all red apples. It bears younger, keeps longer and the fruit colors up several weeks earlier than the common Red Delicious. The fruit is large, solid red and has a delicious flavor, unequalled by any other apple.

**F 36 Sweet Delicious**. Our best sweet apple. Large red fruit with rich, sweet aromatic flavor.

**F 64 Winesap**—The most popular long keeping winter apple. This is an improved strain. It has better color, larger size and will keep right through winter into spring.

**F 66 Yellow Delicious**—The most popular yellow apple. Bears young and heavily. Fruit is large, juicy, fine flavor. Some people who cannot digest other apples, eat this without trouble. It is ready for eating in late fall.

**F 67 York Imperial**—A large red apple, a little lop-sided but keeps all winter. A heavy bearer and good quality.

We can also supply Close, Cortland, Fameuse, Fireside, Haralson, Hibernial, Joan, Lodi, Mantet, Minjon, Oriole, Prairie Spy, Red Baldwin, Red Duchess, Red Rome Beauty, Red Stayman, Secor, Sharon, Turley, Victory, Virginia Crab.

# Plant Nut Trees for profit, beauty, shade and food

The Thomas Black Walnut, Actual Size

## THOMAS BLACK WALNUT

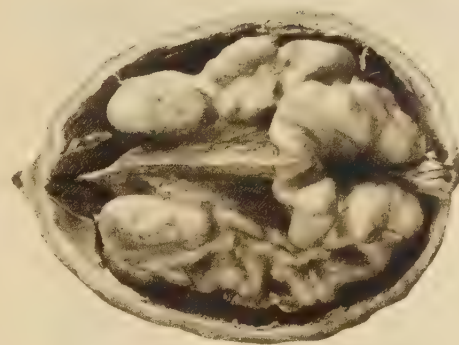

**N 1** When the long cold evenings of winter come, what a pleasure it is to crack some Black Walnuts to eat or for fudge, or for mother. She can use them in so many different ways and what a delicious flavor they add. Everybody likes Black Walnuts, but the common Black Walnut is small and it is hard to get out the meats.

Now you can have the Thomas grafted Black Walnut, which is giant size with kernels much larger, better flavor and much easier to get out. Thomas is fast growing and produces very large nuts. It is the greatest nut tree of the country. You should plant it because—

1. It bears very young, often second year after planting. A mature tree will produce 15 to 40 bushels of giant size nuts which sell for \$4.00 or more per bushel.
2. The nuts are immense size as pictured above. They crack easily so the meats come out in halves and quarters. A bushel of nuts cracks out 10 to 12 pounds of meats.
3. The nuts are delicious flavor and because they are so large and plump and come out in halves and quarters they sell for 75c or more a pound.
4. It will grow in almost every state in America. It is not particular as to soil but of course will do best in rich soil with plenty of moisture.
5. Plant a tree or two for your own use. If you have room, plant more for profit. You can easily sell the big nuts at high prices. Plant 50 feet apart and 2 or 3 inches deeper than they stood in the nursery.
6. In time the tree will grow large and walnut logs are becoming scarce. If you wished you could sell the trees for lumber at a good price. We doubt, though, if you would do this because the nut crop is so valuable. These are grafted trees and grow rapidly.

## HARDY ENGLISH WALNUTS *Carpathian*

**N 15** You know what the popular English Walnuts are which are now grown on the west coast. These Carpathian English Walnuts are just like them, thin-shelled and excellent flavor. But they are hardy and will live and bear in all but the most extreme cold states such as Minnesota, Dakotas, etc. All of our trees are propagated from a selected tree which started bearing very young and bears heavily and regularly and has proven especially hardy. They develop into quite large specimen trees, magnificent as a lawn tree and besides bear their wonderful nuts. They generally start bearing very young.

## CHINESE CHESTNUTS

Now you can grow the attractive Chinese Chestnut tree. After many years of search and hybridizing by government specialists, they have developed trees which are so highly blight-resistant that you can grow them where up to now it has not been possible. They develop into large, handsome trees, making any lawn and home more attractive. The four varieties listed below were selected by these specialists as being the very best. Our trees are grafted from them. The nuts are large, sweet, fine flavored. The trees are entirely hardy with us. To get the greatest yield, plant 2 or more varieties so they can cross-pollinize.

MAKE YOUR HOUSE A HOME. HAVE BLOOMS FROM SPRING TO FROST

Above, Bridal Wreath (Spirea Van Houtte)  
Below, Beauty Bush

## GRACEFUL Beauty Bush

**\$ 8 Beauty Bush** (Kolkwitzia)—This hardy, long-lived shrub is superb in group plantings, as a specimen and for an untrimmed hedge or screen. In the spring the graceful arching branches are completely covered with lovely pink blossoms, delightfully fragrant. Grows 6 to 8 feet tall in ordinary soil in sun or part shade. Rather slow coming into bloom but after 3 years it will be a beauty spot in your yard.

## MISTY Blue Spirea

**\$ 33 Blue Spirea** (Caryopteris, Blue Mist)—One of the most attractive low-growing shrubs. From August to frost every branch and every twig has many clusters of small, fringed powder-blue flowers giving a misty appearance. Makes a neat, compact rounded bush 2 feet tall, with narrow, silvery-green foliage. The roots are hardy but in northern states the top dies down like a perennial. Cut off the old tops in early spring and it comes up lovelier than ever.

# Cardinal Shrub

Weigela  
Vanicek

The Shrub of the Century

**\$ 150** Since we first called your attention to this unique new shrub in the spring of 1947, we have grown and sold over one half million. It is rapidly becoming the most widely planted new hardy shrub in America. The reason is simply that it is truly All-American, thriving in the East, the West, the North, the South. Blooms spring, summer and fall. Plants set out this spring **WILL BLOOM THIS SEASON.**

We wish that you could see them blooming here. In May-June each one is simply covered from top to bottom with hundreds and hundreds of the lovely rosy-red flowers. They are trumpet-shaped, 1 to 1¼ inches across. After this first big display, there is hardly a time until freezing weather that there are not some blossoms. If you cut off sprays of flowers and use them for bouquets, the plant will flower even more freely than if you left them on. The youngest plants in the nursery, only a few months old, bloom.

At Hamburg, the Cardinal Shrub has withstood 20 below zero without injury. It is so easy to grow, not particular as to soil. Thrives in full sun or part shade. Makes a shapely bush 6 feet or so tall with excellent foliage. It is the best hardy new shrub which we have ever tested. Ordinarily prices on an outstanding new introduction are high. But we want many thousands, all over America (except extremely cold sections) to plant Cardinal Shrub because we know that just one in a neighborhood will bring many more orders. Those who see it, want it. Look over your yard, whether large or small. You will find a spot where it will fit in. In a few months you will write us telling how much you like it. We ship them to you **POST-PAID**, trimmed ready for planting.

Specimen 3 to 4-foot shrubs

# VIVID COLOR *Azalea Mollis*

*Imported from Holland*

We are happy to announce that we found in Holland a superior strain of Azalea Mollis which not only has larger, brighter flowers but also is adapted to conditions in the mid-west which heretofore has been unable to grow this grand shrub. They grow 3 to 4 feet tall and just as wide. The lovely flowers cover the bush in May and June, giving a display of color unequalled by any other shrub. Prefers partial shade and a slightly acid soil. Mulch with Peat Moss (listed on page 6). These fine imported plants are 10 to 18 inches tall, branched and will probably give you a few flowers this spring. Stands 10 to 15 below zero without injury.

# LOVELY *Crape Myrtle* BLOOMS MIDSUMMER TO FROST

The South's most beautiful shrub, can now be grown farther north by planting this hardier strain. However, we do not advise planting it north of southern Iowa. Grow it just like Everblooming Roses, giving winter protection by mounding up dirt before cold weather comes. It blooms on new growth so it does not matter if the old top is entirely killed. The flowers have lovely clear colors with a soft crepe-like texture. They bloom the first summer after planting. However, they have one peculiarity. They sometimes are slow to leaf out the first year. They stay dormant for several weeks and you wonder if they are dead. But after a while the leaves come out and they soon start blooming. Crape Myrtle is one of the most beautiful of all shrubs. The foliage is glossy deep green and it blooms in the hot summer months when flowers are so welcome.

## PURPLE CLOUD

\$ 40 A new Smoke Tree offered by us for the first time this spring. For foliage and flowers it is the most striking shrub we have ever seen. The leaves are a rich purple and in mid-summer it is covered with huge masses of the feathery red-purple flowers, producing an effect unequalled by any other shrub. Grows 10 to 12 feet tall and 6 feet wide. Marvelous for background planting and as individual specimens. It has proven perfectly hardy with us but we do not advise planting north of central Iowa. Prefers a sunny location. Our stock is limited so please do not order more than two.

Each \$2.25 Postpaid

# BEAUTIFUL, HARDY *Blue Hydrangea* Domoti

*Blue Hydrangea, Domoti*

**\$ 55** We offer a new hardy strain, which has immense flower heads, often a foot across, that last for many weeks. In ordinary soil the flowers are pink. In acid soil, they are blue. You can make your soil acid by mixing in one half acid Peat Moss (see page 6). Or you can water twice a month with a tablespoon of aluminum sulphate per gallon of water to make the color a rich blue. If you cannot get aluminum sulphate from your drug store we will send you some for 50¢ postpaid.

Does best in partial shade. Grows only 3 to 4 feet tall making a well rounded shrub just as wide. A group of 2 or 3 will enhance the beauty of a picture window in your home. Where winter temperature goes below zero give protection just like roses by mounding up 10 to 12 inches of soil around the plant before severe freezing weather. We do not recommend planting north of central Iowa. Our plants are well rooted field grown (not small greenhouse potted plants). Becomes more popular each passing year.

**\$ 32 Euonymus, Alatus Compactus**—One of the most beautiful of all shrubs, becomes a different color with each season. Yellow flowers in May-June followed by red berries which are very attractive in late summer and fall. Through the summer the foliage is an attractive dark green. In the fall it colors brilliant coppery-crimson tinged rose. An unusual corky bark adds to the winter appearance of this marvelous shrub. Thrives successfully from coast to coast, the Gulf to Canada. Makes a compact, bushy plant 4' to 5 feet tall and 3 to 4 feet wide. Very fine for foundation planting or individual settings. Very attractive with the new modern homes. A shrub that is ornamental and attracts attention spring, summer, fall and winter. Has a place in almost every yard. The plants we send you are especially fine this spring. **POSTPAID.**

# Winterberry

... STAYS GREEN ALL WINTER

**\$ 155 Winterberry** (*Euonymus Patens*)—One of the most attractive and versatile of all shrubs. Lustrous, glossy green leaves stay on all winter, creating interest all year round. Makes a shapely bush 4 to 5-feet tall, bright red berries appearing in the fall, hang on into winter. Fine for foundation planting, as specimens, and a perfect background behind low shrubs, roses and perennials. Makes a wonderful hedge with its green foliage all through the winter. As a hedge plant 18 to 24 inches apart and shear to any desired height. Thrives in sun or part shade, even on the north side of house. Hardy here in southern Iowa but we do not advise planting farther north. Look over your yard and you will find spots where this shrub will help make your home more attractive.

## HARDY HEDGES

### HANDSOME, HARDY *Bridal Wreath*

**H 3 Bridal Wreath** (*Spirea Van Houtte*)—This photograph shows the beauty of Bridal Wreath, America's most popular and widely planted untrimmed flowering hedge. Millions of small white blooms cover the gracefully arching branches, every spring, without fail. Requires no special care and lasts a lifetime. Perfectly hardy, grows everywhere, in full sun or partial shade. You see it all over America and everywhere it is attractive and thriving. Makes a marvelous natural hedge or screen 5 to 6 feet tall. Plant 2 to 3 feet apart.

### HARDY *Privet* HEDGE

**H 2 Hardy Russian Privet** (*Amoor River North*)—If you do not know what hedge to plant, we recommend this very highly. It is by far the most popular hardy trimmed hedge in the northern states. It makes a permanent hedge, lasting for generations. Not only adds beauty, it also protects your yard especially if you have a corner lot. It is fine for a division line between yards. Can be trimmed to any desired height, making a thick, dense hedge, without thorns, right down to the ground. Requires trimming only twice during the summer. But if you trim it 3 or 4 times, it becomes more dense and bushy. Leaves are rich, dark green and hang on until very late fall. Plant 1 foot apart.

## NEW SURE-TO-FRUIT BITTERSWEET

**V 19 Chinese Bittersweet (Loeseneri)**—This is a new, rare species imported from China a few years ago. It is the surest and most prolific fruiting variety known. The foliage is a glossy blue-green. Blooms in June. In autumn the clusters of attractive orange-scarlet berries are so thick they almost cover the entire vine. Just one plant will fruit. But if you plant two in the same hole or close together so they can cross-pollinate, they will bear still more. The berried branches make such fine fall and winter bouquets. Entirely hardy with us, it grows in almost any kind of soil, in full sun or part shade. It will grow in almost full shade but not fruit as heavily. We grow these from cuttings so as to keep the strain pure. POSTPAID.

# CHINESE ELM

**T 20** Because of its extremely rapid growth, the Chinese Elm has become popular. Under ordinary conditions, it grows 5 feet a year. In just a few years, it makes excellent shade. It is very valuable for those sections of America where most other trees will not live or thrive, where it is hot and dry, even in alkali. It seems to thrive even in the poorest soil. But in those sections where Maples, Oaks and American Elm are grown, we advise planting the Chinese Elm only as a temporary tree for quick shade. There are hundreds of thousands of such homes, which would be more attractive and more comfortable if some of these quick-growing Chinese Elms were planted.

# A WINDBREAK IN JUST 5 YEARS

## MAKES YOUR HOME MORE COMFORTABLE, PROTECTS YOUR STOCK

A windbreak around your home and farm buildings makes living more comfortable both summer and winter. It breaks up the dust storms and blistering hot winds and the biting cold winds and drifting snows. It will take less fuel to heat your home. Your livestock and poultry will show greater production and profit. Chinese Elm is the fastest growing, drought resistant, economical tree you can plant for a windbreak. In three years you will see a big growth, in 5 years you would not sell it back for hundreds of dollars. These young Chinese Elm Seedlings are especially fine for windbreak planting. Plant them 5 to 6 feet apart. Two rows in zig-zag fashion help a lot, but three or four rows are better.

For windbreaks, the Chinese Elm is certainly a great blessing. Plant this spring and in a few years you wouldn't part with them for many times what you paid for them. Every day, summer and winter, they add to your comfort and make you money by their protection. For best results, plant 3 or 4 rows.

## FOR QUICKER EFFECT—Plant these Root-Pruned 2-Yr. Seedlings

**T 22** We have a fine field of 2-Year Chinese Elm Seedlings. These have been grown in wide rows and root-pruned which means a better root system. If you want to plant quite a lot of Chinese Elm Trees and hesitate about paying the higher price for the transplanted shade trees above, then these will do very well for you. The price is so low you can afford to make liberal plantings around your home and buildings, giving shade in summer and protection from the hot winds of summer and cold blasts of winter. A planting of Chinese Elm is a blessing on any

farm and especially so in those parts of Texas, Oklahoma, Kansas, Nebraska, Colorado, Wyoming and the Dakotas, where so few other trees thrive. These 2-Year Chinese Elm will grow rapidly and are a great value at these prices. They will be shipped at planting time by express.

## SUGAR MAPLE

**T 6** The Sugar Maple (also called Hard Maple) is native to almost every state east of the Rockies excepting the gulf states. It is a permanent tree that lasts for generations. There are many homes in America which are identified by their magnificent Sugar Maples. There are two strains, a northern and a southern. Our trees are the northern. This strain colors more attractively in the fall when its luxuriant foliage is marvelous with tints of orange, gold and scarlet. It makes a large, spreading, perfectly formed tree, of which you will always be proud.

## PIN OAK The Most Majestic of Shade Trees

**T 11** Everybody thinks the Oak is a grand tree. Now we are offering Pin Oak, the finest of all Oaks, at special prices. Careful records have shown that the Pin Oak, the fastest growing of all the Oaks, actually grows almost as fast as the American Elm. It is one of the most enduring of all trees. A tree planted now will be a great pleasure to you and for generations to come. For street and lawn planting it has no equal. It grows in symmetrical, pyramidal form and at maturity towers 60 feet high. The rich green foliage is deeply cut and colors to a glorious coppery-red in the fall. A sturdy, rugged grower, it adapts itself to all locations and is not bothered by insects.

## White Clump Birch *Nature At Its Finest*

**T 8** White Clump Birch is a rare form, grown as a clump with 3 or more distinct trunks with only one root system. It gives a very attractive naturalistic effect to any yard. The bark turns white after 2 or 3 years and stays white winter and summer. The green foliage turns a pleasing yellow in the fall. Grows 25 to 30 feet tall and grass will grow right up to the

trunks. Perfectly hardy, easy to grow, thrives everywhere except in the southern states. This is the most satisfactory of all birches.

**Maroon Foliage**

**T 1 Hopa**—Very popular flowering crab. Beautiful in bloom, beautiful in foliage, beautiful in fruit. In spring, it is completely covered with the fragrant, bright pink flowers. From mid-summer to frosts, the clusters of small, red fruit gleam brightly along the branches. It makes fine jelly. In the spring, the foliage is a rich maroon. Perfectly hardy, easy to grow, thriving in any soil. Grows 20 feet tall.

## Jay Darling Flowering Crab

**T 32 Jay Darling**—This new variety is a favorite of Mr. den Boer, Des Moines Iowa, the eminent Flowering Crab authority. Similar to Hopa but better in many respects. The flowers are a deeper color and hold this color longer. The bright red fruit hangs on the tree long after ripening. The tree is more rounded and symmetrical and does not grow as tall as Hopa. In the spring and early summer the foliage is a rich, deep maroon. The birds like the fruit and those that winter over eat the fallen fruit all winter. One of the first trees to bloom in the spring, a Jay Darling brings refreshing beauty after the winter cold. The fruit makes wonderful jelly. Perfectly hardy, it thrives everywhere, easy to grow.

# Crimson King Maple

**T7 Crimson King Maple** (P.P. 735). Truly a King of the ornamental trees, it is distinctive, colorful, captivating. Far superior to Schwedler's Purple Maple. The foliage is a deep maroon-purple from the time it leafs out until the leaves fall. This rich color adds an exhilarating contrast to the prevalent greens. Fine for city planting, not harmed by smoke, gases, dust. It will live for many generations, becoming more attractive each passing year. We have sold many thousands since we first offered it, spring of 1949. Now we are receiving enthusiastic letters of praise. The trees we send you are one year old top, 3 year old roots. They will start branching the first summer and every leaf, every inch of growth will be a delight. Perfectly hardy and easy to grow.

## Hardiest Magnolia

**T18 Magnolia, Soulangeana**—This is the hardiest Magnolia and many consider it the most beautiful of all flowering trees. People drive for miles to see them in bloom. One of the first trees to bloom in early spring, the delightfully fragrant flowers appear before the leaves. The blossoms are very large, often 8 inches across, purple-pink on the outside and white on the inside. Grows only 10 to 12 feet tall and starts blooming very young, often the same year planted. There are several fine specimens in Hamburg and in Omaha, Nebr. But we think this is the northern limit, as it requires sheltered locations here. In Missouri, most of Kansas, southeast Nebraska, Oklahoma, all Illinois except northwest part, Indiana, Ohio, and east, most of Michigan, all the southern states, it is marvelous.

1952 All America Award Winners

## OUTSTANDING *Roses* OF BREATHTAKING BEAUTY

Helen Traubel

**C 40 Helen Traubel (P.A.F.)** This lovely new 1952 AARS winner was named for the famous lady of American Opera. The buds are large and perfectly formed, truly magnificent. The color varies somewhat with the weather but is always beautiful. In the summer it is a bright lively porcelain-pink. In the spring, late summer and fall it deepens to a luminous apricot-pink with a tinge of orange. The flowers are large, well-formed and borne singly on long stems with only a few thorns. Ideal for cutting. A vigorous, healthy grower that produces its flowers freely from June until frost. You certainly will want to add to your garden this great rose created by the genius, Herb Swim. It had to be exceptional to win a 1952 AARS Award.

Fred Howard

**C 39 Fred Howard (P.P. 1006)** One of the last creations of the late famous rosarian whose name it bears. This rose performed so outstandingly in the AARS trial gardens from coast to coast, that it won a coveted AARS award for 1952. The large, shapely buds open into fully double, attractive flowers often 4 inches or more across. The color is a rich buff-yellow with a delicate blending of orange and pink. Keeps its color unusually well even right through the hottest summer weather. The flowers come singly on long strong stems especially fine for cutting. Extremely vigorous plant with glossy deep green foliage. Blooms freely all season and especially well in the fall. They are a gorgeous sight. Perfect buds and huge open flowers, almost of gold, on healthy plants standing over 3 feet tall. Worthy of the name it bears and a place of honor in your garden.

The **AARS** (All America Rose Selections) was founded in 1938 for the sole purpose of promoting better roses. To win an AARS Award, the highest honor a rose can attain, it must pass strict standards in official test gardens located in all sections of the United States, for two years before introduction.

# Glorious Floribundas

**Bloom June to Frost—Remarkably Hardy**

Floribunda roses represent a new trend. Adapted for planting anywhere about the home. Very good as foreground plantings with evergreens and shrubs, for picture windows, a marvelous driveway border or medium hedge. A constant source of breathtaking color from June until frost. Becoming increasingly popular because the plants are hardy, disease resistant and bloom so freely. Plant in groups, beds or borders, 18 to 24 inches apart. **ALL ROSES ARE SHIPPED POSTPAID, TRIMMED READY FOR PLANTING.**

**CC 89 Chatter** (Plant Patent 739). Clusters of bright crimson fragrant flowers continuously from June to October. Hardy, disease-resistant, grows 18 inches tall. We think it the best of this color. Makes a marvelous bed or border.

**CC 191 Geranium Red** (P.P. 811). The big 4 inch camellia-like flowers have same vivid red color and same spicy fragrance as the red geranium plant. You will love it.

**CC 86 Glorious** (P.P. 879). This new rose has clusters of large vivid cerise fragrant flowers all season. 30 inches tall.

**CC 87 Goldilocks** (P.P. 672). The first bright yellow floribunda. Fully double fragrant flowers in clusters from late spring to freezing. 24 inches tall, extremely disease resistant.

**CC 192 Pinocchio** (P.P. 484). Clusters of salmon-pink flowers all through the season. About 2 feet tall.

**CC 193 Red Pinocchio** (P.P. 812). Clusters of lovely flowers, carmine shaded scarlet. 20 inches tall.

 **CC 95 World's Fair** (P.P. 362). The first rose to win AARS award. Especially fine in a bed or border. Flowers are 3 to 4 inches across, velvety deep crimson. 24 inches tall.

TOP ALL AMERICA WINNER FOR 1950

C 85 FASHION scored the highest of the All America Rose Award Winners for 1950, as well as winning several notable International Awards. Many consider it the finest Floribunda ever introduced. The plants are vigorous, healthy and almost always covered with big clusters of blooms from June to Frost. The color is entirely new in roses, warm oriental-red buds open into the loveliest sparkling coral-pink richly suffused with gold. They catch the eye wherever you see them and always are a center of attraction. Their exquisite old-rose fragrance fills the air. Hardy, makes a bushy plant around 24 inches tall. The blooms are very long lasting, non-fading. Ideal for beds and borders. Plant them in front of some evergreens or shrubs or below a picture window. The demand for this variety has been enormous and it has become one of the most popular roses in all America. Outstanding anywhere planted. Pictured on Page 40. POSTPAID.

Winning an All America Rose Selection Award is the highest honor a rose can achieve in America. This symbol AARS identifies award winners. The All America Selections system is a unique method for testing new varieties before they are introduced to the public and has resulted in raising rose standards to a higher peak of perfection. A rose has to be superior in every respect to win an award because it is tested by experts in trial rose gardens in all sections of the U. S. Not only are the flowers superior but also the plant and habit of growth must be. They cost but little more than other varieties and are well worth the difference. The vast increase in popularity of roses can be attributed in large measure to the founding of All America Rose Selections in 1938. ALL ROSES ARE SHIPPED POSTPAID AND TRIMMED READY FOR PLANTING.

**C 186 Mission Bells** (Plant Patent 923). An outstanding new rose that won All America Rose Selection Award for 1950. A healthy, vigorous grower that blooms freely. The pointed buds open into large, high-centered flowers often 5 to 6 inches across. Color is brilliant shrimp-pink, shaded glowing salmon. Fragrant. **Each \$2.25, 3 for \$6.00**

**Extra Large Specimen Plants, Each 2.50, 3 for 6.75**

**C 187 Sutter's Gold** (Plant Patent 885). This fine new rose not only won All America Rose Selection Award for 1950 but also won the Gold Medal in the world famous Bagatelle trials in Paris, the first time a rose has won both honors the same year. The long pointed buds are bright yellow heavily shaded orange and red. Open into lovely high-centered flowers of richest golden yellow. Most fragrant of all yellow roses.

**Each \$2.25, 3 for \$6.00**

**Extra Large Specimen Plants, Each 2.50, 3 for 6.75**

**C 185 Capistrano** (Plant Patent 922). A rose that won All America Rose Selection Award for 1950 because it combined a very lovely flower on an exceptionally strong growing, healthy plant. Large flowers of an unfading rosy-pink, richly fragrant, on extra long stems, produced freely. Without doubt this is one of the very best bright glowing pink roses ever introduced.

**Each \$2.25, 3 for \$6.00**

**Extra Large Specimen Plants, Each 2.50, 3 for 6.75**

# EACH AN ALL AMERICA AWARD WINNER...

## EACH PICTURED ACTUAL SIZE

**C 76 Tallyho** (Plant Patent 828). This grand rose and Forty-Niner were the only award winners in 1949. The healthy, vigorous bush produces constantly from late spring to frost, the big, fully double, long-lasting, spicily fragrant flowers. Blooms come singly on long stems fine for cutting. Color is a deep rose shaded soft red with outside petals almost crimson.

**Each \$2.00, 3 for \$5.25**

**Extra Large Specimen Plants, Each 2.25, 3 for 6.00**

**C 18 Lowell Thomas** (Plant Patent 595). The perfect buds open into charming flowers of the purest clear yellow. Come singly on long stems and have a delicate fragrance. Exceptionally fine. We consider this the best clear pure yellow patented rose we have ever grown.

**Each \$2.00, 3 for \$5.25**

**Extra Large Specimen Plants, Each 2.25, 3 for 6.00**

**C 31 Forty-Niner** (Plant Patent 792). This 1949 All America Rose Selection Award winner is probably the brightest colored rose ever introduced. Inside of petals is vivid red and the outside, chrome yellow. Long pointed buds open into well-shaped flowers, fragrant, and lasting a long time. Very few thorns. Extremely healthy, vigorous bush.

**Each \$2.00, 3 for \$5.25**

### TEN BEST ROSES

The National Rose Jury selected the 10 AARS roses listed on the opposite page as being the outstanding introductions of the AARS. The 1950 and 1952 AARS winners were not included in the judging. There were no winners in 1951. All ten are everblooming hybrid tea roses. All have won the coveted AARS award which assures you of the finest in roses. Selected for beauty of flower, freedom of bloom and vigor of plant, they will give you a continuous supply of magnificent flowers from spring to frost, year after year.

**C 69 Rubaiyat** (Plant Patent 758). The only rose to win an award in 1947. The extremely vigorous and healthy bush produces very fragrant, rose-red flowers constantly through the season. A marvelous garden rose and long stems make it good for cutting.

**Each \$1.75, 3 for \$4.65**

**Extra Heavy Specimen Plants, Each 2.00, 3 for 5.40**

**C 29 Diamond Jubilee** (P.P. 824). This great rose won top honors in 1948. The large, fragrant flowers of warm buff-orange are fully double, high centered. They last unusually long both on the bush and when cut. Exceptionally vigorous, healthy grower and free bloomer.

**Each \$2.00, 3 for \$5.25**

**Extra Heavy Specimen Plants, Each 2.25, 3 for 6.00**

**C 10 Charlotte Armstrong** (P.P. 455). One of the world's best roses. Has won many honors. Magnificent in the garden because of its great vigor, disease-resistant foliage and freedom of bloom. Long streamlined carmine buds open into enchanting flowers of the loveliest cerise, beautiful at all stages. Long stems fine for cutting.

**Each \$2.00, 3 for \$5.25**

**Each \$1.75, 3 for \$4.65**

# The Two Greatest Roses of all time!

**C 58 Peace** (P.P. 591). Generally conceded to be the greatest rose ever created. The perfect buds open slowly into large, fragrant, fully double flowers. Its greatest charm is the changing panorama of colors. The buds are rich gold edged cerise. As the outer petals unfold, the gold changes to canary then lightens to creamy ivory. The cerise edge gradually deepens and becomes broader so the fully open flower appears a sparkling cerise with a creamy-yellow base. Last unusually long, beautiful at all stages. A vigorous, healthy, free-blooming bush.

**Each \$2.50, 3 for \$6.60**

**Extra Large Specimen Plants, Each 2.75, 3 for 7.35**

**C 11 Crimson Glory** (P.P. 105). The greatest red rose of all time. Next to Peace, this is America's favorite fine rose. The perfect buds open into large magnificent blooms of velvety deep crimson. They are so fragrant that only a few flowers will perfume an entire room. A healthy grower it produces its beautiful flowers from late spring to frost. There are many fine red roses but Crimson Glory has a velvety texture, a rich crimson color, a fragrance, perfection of form and healthy, vigorous growth that makes it outstanding. Truly a "must-have."

## EVERBLOOMING CLIMBING ROSE

**C 165** This picture, made from a color photograph, shows the beauty and freedom of bloom of this remarkable new rose. From late spring to hard frost the fully double, 50 to 60 petals, deep rose-pink flowers are produced. Very fragrant, they come on long stems fine for cutting. Hardy as Paul's Scarlet and disease resistant. Very fine as a pillar rose. The most popular climber we ever sold. It produces flowers just as perfect as those from a bush rose. Fertilize with some cow manure if you can get it. Otherwise use Ra-Pid-Gro, Vigoro, etc. The more it grows, the more it blooms. Will bloom this summer.

White Dawn

**C 169 White Dawn**—Here is the hardy, everblooming white climbing rose we have been waiting for. Created by Dr. Longley of the University of Minnesota. The flowers are double, snow-white, fragrant and produced constantly from late spring to frost. Also, it WILL BLOOM THIS SUMMER AND FALL. With us, it is just as hardy as New Dawn, one of its parents.

**Each \$2.00 Postpaid**

**C 170 Gold Rush**—At last we have a hardy everblooming yellow climbing rose. The lovely flowers are large, double, high-centered and a rich golden yellow. They are produced from late spring to frost. Will bloom this summer and fall. The foliage is a glossy ivy-green. Hardy, a vigorous grower, this new variety is certainly welcome.

**Each \$1.75; 3 for \$4.65 Postpaid**

# INTER-STATE'S Climbing Roses

**C 161 Paul's Scarlet**—This famous rose is the most popular red climbing rose ever created. A mature plant in full bloom is a sight that simply stops everybody who passes by. It is a solid sheet of blazing scarlet. The color does not fade but is as bright when last petal falls as when it opened. The flowers come in clusters on long stems. Plant them on a trellis or porch. A row of them along the fence will be the talk of the town.  
**Each \$1.15, 3 for \$3.00**

**C 166 Zephyr** (Zephirine Drouhin)—Here is a rose that really climbs. It will cover a pergola, porch, arch or fence. **IT HAS NO THORNS.** It is hardier than most climbers. In the spring it is completely covered with the large unfading American Beauty rosy-red flowers. Very fragrant. You also may get a few flowers in the fall. This is far better than the variety, Climbing American Beauty.  
**Each \$1.50, 3 for \$3.90**

**C 152 New Dawn**—This was the first Everblooming Climber. The flowers are large, double, a lovely apple-blossom pink and delightfully fragrant. They come on long stems fine for cutting. It blooms constantly from late spring to frost. An ideal pillar rose. It has proven hardy. Will bloom this season.  
**Each \$1.50, 3 for \$3.90**

## BLAZE SPECIAL

**1 Blaze**  
**1 Dr. J. H. Nicolas**

**1 Gold Rush**  
**1 White Dawn**

**CC 172 All 4 for \$6.15**

**Postpaid**

For mass display of color, hardly anything can equal climbing roses in full bloom. Used on porches, arbors, trellises and trailing over fences. All these climbers are hardy, but we recommend that winter protection be given in cold sections. Set 3 to 4 feet apart. Dr. J. H. Nicolas, Blaze, Paul's Scarlet and Coral Pillar are ideal for trellis. They are Pillar type and do not grow as vigorously as the others. Gold Rush, New Dawn and White Dawn grow more vigorously and can be used for trellis, porch, pergola or fence. City of York and Zephyr are ideal for pergola, porch or fence as they are such strong growers. All climbing roses are postpaid.

**C 155 Blaze**—An ideal pillar rose with clusters of brilliant scarlet flowers covering the plant in June and repeat intermittently all season. Holds this bright color in the hottest sun. Plant in good soil as the more it grows, the more it blooms. If you cut off the old flowers, new bloom shoots will grow from the first eye below the old flower cluster.  
**Each \$1.50, 3 for \$3.90**

**C 156 City of York**—A new very vigorous growing hardy climber. For several weeks in late spring and early summer, the vigorous plant is covered with hundreds of the 3-inch snow-white flowers. So fragrant that they perfume the entire area. There is some recurrent bloom during summer and fall. It is a strong, healthy grower, hardy as Paul's Scarlet. Its deep green foliage fairly sparkles in the sunlight.  
**Each \$1.75, 3 for \$4.65**

**C 154 Coral Pillar**—Originated by Dr. W. E. Lammerts, this new everblooming variety is a perfect pillar rose. The flowers are large, a brilliant blending of rose, pink, carmine, gold and apricot. Hardly ever out of bloom from spring to frost. When your neighbors see it, they will want one too. It is strikingly beautiful and very free blooming. It will bloom this summer and fall.

As it is new, we do not know yet how hardy it is so we suggest that in northern states it be given good winter protection. It blooms all through the season and will bloom **THIS SEASON.**  
**Each \$2.50, 3 for \$6.60**

**C 167 Climbing Crimson Glory** (P.P. 736)—Exactly the same marvelous deep crimson flowers, the same rich fragrance, as the bush rose. But here it is in climbing form. A perfect pillar rose. Blooms all through the season and **WILL BLOOM THIS SUMMER AND FALL.** Should be given winter protection in the northern states.

## Inter-State's ROSE GUARANTEE

We believe our roses are the finest it is possible to produce. They are guaranteed to grow and bloom for you this summer, except some climbers which bloom next year after planting. If they do not, notify us by August 1st, 1952 and we will replace them free.

Remember that roses are living plants and respond to good care and attention. With each order we send a Planting Guide. Just follow the simple planting and cultural instructions and you will have glorious flowers. Fertile soil and loving care means more and better blooms.

## Famous Everblooming Roses

The Rose is rightfully called the Queen of All Flowers. None other can equal its fragrance, its colorful beauty, its grace, its freedom of bloom from spring to frost—each flower bringing its message of joy, cheer and beauty.

Can you think of another hobby that will provide more pleasure and more beauty for you than growing roses? There is a thrill when you walk into a rose garden and smell the delightful fragrance of the beautiful flowers.

Each year many thousands buy from this fascinating selection of glorious, hardy, everblooming roses. They will commence blooming 7 to 8 weeks after planting. PLANT ROSES EARLY, around the time when people are putting in early gardens. Plant 20 to 24 inches apart. With each order we send Planting Instructions telling you how to plant and care for your roses.

These are all strictly first quality, hardy, field-grown plants. This season they are exceptionally fine, vigorous and husky. Some prefer to plant extra heavy bushes so we are making a special grade selecting the extra large, specimen plants, extra well-branched with extra strong root system. We also assure you that our regular 2-Year No. One grade will satisfy critical buyers. They are the kind which have made Inter-State roses famous all over America. The Standard 2-Year Medium (No. 1½ grade) Plants are smaller than the 2-Year No. 1. They will bloom this summer and are a very good value.

**C 12 Allure** (Plant Patent 886)—A new rose we introduced spring of 1950. Both we and Mr. H. C. Swim, the originator, think that it is the finest rose of its color. In the first place the plant is so healthy, vigorous and free-blooming, with glossy leathery foliage. It won a First Certificate at the Famous Bagatelle Gardens. The buds are large, pointed, perfect form and gradually unfurl to a very large, high-cen-

tered flower with a pleasing fragrance. It lasts a long time. The color is a rich shining Neyron rose suffused with gold and tinted salmon. When fully open the flowers are 5 to 6 inches across. They come singly on long stems, very fine for cutting. Has very few thorns. A wonderful rose with a great future. Pictured on page 42.

**Each \$1.75, 3 for \$4.65**

**C 17 Beacon** (P.P. 938)—A grand red rose being introduced by Inter-State this spring. A strong, vigorous, healthy grower that produces continuously all season. Attractive buds open slowly into large, fully double fragrant flowers of pleasing bright cerise-red shaded carmine. Reports from trial plantings in various parts of the United States confirm our judgment that it is a superior red rose. Pictured on page 43. Each **\$2.00**, 3 for **\$5.25**

**C 20 Caledonia**—Long buds open into double, high-centered flowers of ivory changing to pure white. Come singly on long stems. Delicate fragrance.

**C 22 Christopher Stone**—A most exciting new rose—a brilliant, sparkling scarlet-crimson without a trace of blue. Shapely long pointed buds open into large attractive flowers with the true old damask rose fragrance. A healthy, vigorous grower and exceedingly free-bloomer. Stands lots of heat. One of the best bright red roses. Pictured on page 42.

**C 21 Condesa de Sagtogo**—large, fragrant flowers of fiery copper-red inside and rich yellow outside. Strong, healthy, vigorous grower and free bloomer. It is one of the great roses of all time.

**C 23 Contrast**—A strikingly beautiful two-tone rose, the inside of the petal is cerise-rose with a brightening touch of orange, and the outside is satiny white. The flowers are very full and double, fragrant and produced abundantly throughout the entire season. Fine in the garden and for cutting. It is a hardy, husky, vigorous grower, a rose that "can take it."

**C 25 Duquesa de Penaranda**—A most intriguing color of orange-apricot, with deeper coppery tones, large pointed buds, sweetly perfumed and long lasting. A tall, strong grower with beautiful light green shiny foliage. One of the first varieties to bloom in the spring. Pictured on page 43.

**C 27 Editor McFarland**—All through the season; the lovely fragrant, glowing pink flowers are produced on long, strong stems, fine for cutting. The buds are perfect. We consider this one of the finest pink roses ever introduced.

**C 28 E. G. Hill**—Large flowers of very lasting dazzling scarlet-crimson, never fading or turning blue, but actually becoming deeper red as they open. The flowers are borne on long stems and are very fragrant. Its brilliant color, extra freedom of bloom and lasting color qualities have made it so popular.

**C 26 Edith Nellie Perkins**—One of the finest of all roses. The long, pointed buds come on long stems and open into perfect flowers of orange-cerise and salmon tinged gold inside. Fragrant. Grows vigorously and blooms freely.

**C 30 Etoile de Hollande**—The perfect buds open beautifully into glorious perfect flowers of velvety crimson. Incomparable fragrance. The bush is strong, free branching and healthy. Fine for cutting.

**C 34 Frau Karl Druschki**—The magnificent white rose that is loved by all. Immense long, pointed buds open into graceful flowers that are unsurpassed for form and the color is the clearest, pure white. Perfectly hardy. Such a vigorous grower you should plant them farther apart.

**C 36 Golden Dawn**—This lovely rose has taken the entire world by storm. The gorgeous buds of yellow have splashes of carmine and open into large, fragrant flowers of rich yellow. Hardy, vigorous, free-blooming

**C 37 Golden Rapture**—Exceedingly fine new rose with fragrant flowers of clear golden yellow. Exquisite buds on long stems, fine for cutting as they last so long.

**C 44 K. A. Victoria**—Absolutely perfect, fragrant flowers of ivory-white. An old favorite that even today is unsurpassed.

**C 46 Margaret McGredy**—At first the color is a bright orange-scarlet that lightens to a rich carmine and is beautiful at all times. A healthy, vigorous grower that is always in bloom.

**C 47 McGredy's Ivory**—A magnificent creamy-white rose that is fragrant and deep-petaled. Buds are long pointed, opening into very large, double flowers. Many consider it the finest white rose. Pictured on page 43.

**C 48 McGredy's Scarlet**—A wonderful rose, beautiful in the garden and fine for cutting. The large flowers of luminous carmine-red are produced generously from spring until frost.

**C 49 McGredy's Yellow**—This is our favorite yellow rose. The color is so soft and clear and pure. The flower has a charm and grace all its own and entirely distinct. A strong grower and free bloomer. Pictured on page 42.

**C 51 Mme. Joseph Perraud**—This outstanding rose is pictured on page 42. A wonderful exhibition and garden rose. The long slender buds open into fragrant full flowers of nasturtium buff flushed orange. Very vigorous. Large, glossy foliage.

**C 52 Mme. Jules Bouche**—A very fine white garden rose. The sweetly scented blooms are produced very freely all season and last a long time when cut.

**C 55 Mrs. P. S. du Pont**—From early summer until freezing this rose is a glorious sight with its rich yellow flowers. Long pointed buds, fragrant, profuse bloomer. It was the favorite yellow rose in our World's Fair Rose Garden in Chicago. Pictured on page 43.

**C 59 Picture**—We consider this one of the very finest pink roses, a clear pink with just a trace of salmon to give it a warm glow. Delightfully fragrant. The blooms are perfect in bud and when open. Blooms continuously.

**C 60 Pink Dawn**—A new rose. Fine for gardening and cutting. Buds are lovely, and open into large, fully double flowers of clear, purest pink. Extremely fragrant. A vigorous grower, hardy and free-blooming.

**C 62 Poinsettia**—This free-blooming rose brings to you the brilliance, the glowing red color of the Christmas Poinsettia. Long pointed buds, ideally formed, fine for cutting, free-blooming.

**C 64 Pres. Hoover**—A glorious combination of cerise-toned orange, scarlet and yellow. Richly perfumed, long stemmed and free-blooming. One of the most beautiful roses ever introduced. Pictured on page 42.

**C 66 Radiance, Pink**—The great pink rose, planted everywhere because it has made good all over America. Fragrant flowers are produced abundantly all season.

**C 67 Radiance, Red**—America's great red rose. Vigorous grower, hardy, healthy, free-blooming, with a true rose fragrance.

**C 74 Snowbird**—A hardy, very double, white rose that blooms profusely all season and is especially fine when grown in Tree Rose form.

**C 72 Soeur (Sister) Therese**—One of the best yellow roses. The flowers are a bright yellow with some petals edged carmine. The fragrant blooms come almost in candelabra effect. A healthy, vigorous, free-blooming bush.

**C 75 Talisman**—A glorious combination of orange-yellow and rose-red. The buds are long pointed, flower is double, high centered. The fragrant flowers are freely produced all season and are especially fine for cutting as they come on long stems. The fall bloom is exceptionally gorgeous.

**C 77 The Doctor**—This is considered by many to be the most beautifully colored of all roses. The long, pointed buds open into simply enormous, yet graceful blooms, very fragrant. It is a pink with an iridescence, a sheen beyond description. Each flower is so perfect, so gorgeous, that you will consider it almost priceless. Far more beautiful than pictured on page 43.

## EVERBLOOMING FLORIBUNDAS

In the above picture is a planting of Floribunda roses in front of Climbing roses. Floribunda Roses are hardy, disease-resistant and long lived. They need but little care. The flowers come in clusters and bloom constantly from spring to freezing. Even early frosts do not stop them. Plant them in borders, solid beds, or in groups in front of shrubs and evergreens, adding their colorful flowers all season. They make a marvelous hedge. For cutting, just a stem makes a bouquet, and they last a long time when cut. Fine for corsage and arrangements. Plant some near your home for a color accent. A natural for picture windows. Plant 18 to 24 inches apart.

## EVERBLOOMING BABY ROSES

These Polyantha Baby Roses are ideal for borders and solid beds. Many like them for cemetery planting because they are so hardy and require so little care. Bloom constantly from spring to freezing. Grow only 15 to 18 inches tall. Plant 15 to 18 inches apart.

**C 96 Chatillon**—Enormous heads of vivid pink flowers. It always creates a sensation.

**C 97 Gloria Mundi**—A favorite for the picture windows because of its large clusters of brilliant orange-scarlet.

**C 98 Sparkler**—Always full of the bright crimson flowers. A favorite.

# Grow Prize Dahlias

Just look at these low prices for fine Dahlias

Dahlias are the largest and most beautifully colored of all the late summer and fall flowers. Easy to grow, we send simple planting instructions with every order. For exhibition, nip off the side branches allowing only a few main stems to grow. For lots of flowers, nip the ends of the main shoots when only a foot or so tall, making them branch. A young, small to medium-size bulb will do much better than a large, sappy, over-grown bulb. Even though Dahlias are planted late, we suggest that you order them early. They will keep perfectly in a moderately cool place, until planting time. ALL DAHLIAS ARE POSTPAID.

**B 17 Commando**—Immense, deep blooms almost a foot across of bluish-lilac. One of the most spectacular Dahlias we have ever seen. . . . . **Each 65c**

## GIANT DAHLIAS

You who delight in raising large blooms, will want these three outstanding Dahlias. Give them a little attention and you can grow flowers as large as dinner plates and brilliant as a beacon light.

**B 15 Mrs. George le Boutillier**—Here is one everybody likes, especially the men. Giant 10 inch flowers of rich crimson. Without doubt the greatest of all reds. . . . . **Each 55c**

**B 18 Royal Pennant**—Large, very deep flowers of vivid purple. Long strong stems hold the flowers perfectly. Magnificent. **Each 60c**

**B 8 W. H. Taft**—Large, deep, perfect flowers of the real old-rose, a color that is rare and found in only a few flowers. Strong stems. . . . . **Each 60c**

### GIANT SPECIAL

**BB 29 Two Each Above 3 Dahlias only \$2.25**  
**BB 30 One Each Above 3 Dahlias only \$1.35**

## POPULAR DAHLIAS

These fine varieties have helped make Dahlias so popular in millions of gardens all over America. In fact, these are today the most popular kinds and they well deserve to be because of their large, beautiful flowers which are produced so abundantly.

**B 6 Avalon**—Perfect flowers of rich yellow. . . . . **Each 45c**

**B 5 Gertrude Brinton**—Brilliant scarlet-crimson. . . **Each 45c**

**B 16 Mrs. Warner**—Most popular lavender. . . . . **Each 45c**

**B 26 Rose Glory**—Lovely rose-pink. . . . . **Each 45c**

**B 14 Sagamore**—Large, perfect flowers of bronzy-buff shaded salmon. . . . . **Each 45c**

**B 13 White Wonder**—Very large white. . . . . **Each 45c**

### POPULAR SPECIAL

**BB 33 Two Each Above 6 Dahlias only \$3.15**  
**BB 32 One Each Above 6 Dahlias only \$1.75**

**FREE**—With Each Special (BB 29, BB 30, BB 33, BB 32) we will include **Free 1 COMMANDO**, the giant lilac-blue dahlia worth 65c

## Mixed Dahlias

These Dahlias, all different, are not labeled. If you want beautiful flowers and do not care to know the names (many will recognize choice varieties), this is a very good offer. We include one Cactus Dahlia in each collection.

**BB 31 5 for \$1.00 Postpaid**

## Cactus Dahlias

These are becoming very popular because they are so attractive in the garden and make such marvelous arrangements and bouquets. The petals are narrow and pointed, some gracefully curved and twisted. They bloom freely.

**B 53 Bertha Horne**—A beautiful bronzy-yellow with just a tinge of buff. Profuse bloomer and always attracts attention. . . . . **Each 50c**

**B 54 Celia**—Exquisite orchid-pink with a warm creamy-white center. Easily the best Cactus Dahlia of this color. It is very beautiful. Free bloomer. . . . . **Each 50c**

**B 55 Libelle**—A true royal purple that is strikingly beautiful both in the garden and when cut. Everybody likes it. Free bloomer. **Each 50c**

**BB 56 One Each of All 3 Cactus Dahlias Above for \$1.00 Postpaid**

**BB 57 Two Each of All 3 Cactus Dahlias Above for \$1.85 Postpaid**

## Show Dahlias

These are also called Ball Dahlias. They are small, 2 to 3 inches across. Tremendous bloomers, from early in the season to frost. The flowers come singly on long stems, attractive in the garden and especially fine for cutting. Every day, in season, you can cut a bouquet. The colors are so clean, bright and cheerful, and blend beautifully. Plant them freely, you will be richly rewarded.

# Plant Inter-State's Large Flowering *Cannas* For Continuous Bloom Early Summer to Frost

Big Bulbs, Postpaid

Varieties Alike or Assorted, Your Choice

**3 for 55c, 6 for \$1.00**

No other flower will give as brilliant a display all summer and fall as a bed or border of Cannas. WE SEND YOU BIG, EXTRA FINE BULBS. These larger bulbs will produce more and better flowers. Plant them in full sun in good soil when the ground warms up in late spring. Do not plant too early or they will rot in the ground. Water freely in dry weather. Plant 18 inches apart each way. All Cannas are Postpaid.

**B 92 Eureka**—Large creamy white flowers all through the season. Green foliage, grows 3½ feet tall.

**B 95 King Midas**—We think this the finest clear bright yellow. Large flowers right up to frost. Green foliage, grows 4 feet tall.

**B 100 Pink Giant**—The finest pink canna we know. Large heads of broad petaled flowers, a bright glowing pink. Green foliage. 4½ feet tall.

**B 97 President**—For many years this has been America's favorite Canna. All through the season it produces large bright red flowers. Grows 4 feet tall. Green foliage.

**B 94 Red King Humbert**—Large, brilliant orange-scarlet flowers until frost. Purple-coppery-bronze foliage, 4½ feet.

**B 98 Yellow King Humbert**—Large flowers of golden yellow heavily flecked with red. Green foliage. 4½ feet tall.

**BB 6 One Each of all 6 Cannas above for \$1.00 Postpaid**

## PRESIDENT SPECIAL

A solid bed of President is a grand sight all summer and fall.

**BB 99 25 President for \$2.85 Postpaid**

## TIGER FLOWER

**Aztec Tiger Flower (Tigridia)**—The flowers are so strikingly beautiful that nothing in your garden will draw as much attention. Grows 24 inches tall. The blooms are huge, often 6 inches across. Each flower lasts but a day, opening at dawn, following the sun in its course, then passing at sunset. This goes on all through the summer. Dig the bulbs in the fall and store them just like Gladiolus.

New Olympic Hybrid Lily

ALL the Lilies we list are hardy and under normal conditions will come up year after year. *But we recommend that in cold sections you put on a winter mulch to prevent alternate freezing and thawing.* Plant in well-drained soil. In heavy soil plant 1 inch less than stated, in light sandy soil plant 1 inch deeper. Mixing  $\frac{1}{3}$  to  $\frac{1}{4}$  Peat Moss with the soil when planting Lilies, is beneficial. They can be planted in full sun but afternoon shade will make the flowers even more beautiful and they last longer. In dry weather water thoroughly about every ten days. Annuals like Petunias can be planted around them. Vinca Minor Bowles is a fine perennial to plant among Lilies. Or a mulch of Neutral Peat Moss (see page 6) or lawn rakings helps to keep the roots cool in summer's heat. Remove seed pods as they take strength from the bulbs. When cutting flowers, leave  $\frac{1}{2}$  to  $\frac{2}{3}$  of the stem. **ALL THE LILIES WE SEND YOU WILL BLOOM THIS SEASON.**

## Amazing New Olympic Hybrid Lily

**B 79** On the slopes of Oregon's Mount Hood this new race of Hybrid Lily was created by Mr. Jan de Graaff, the result of many years intensive hybridizing and selecting. It is a Centifolium Hybrid and promises to become America's most popular Garden Lily. As these are grown from seed there is a pleasing variation in color. Some are cool icy green, others delicate pink, some glistening white, still others are different shades of yellow, and many with lovely blends of several of these colors. We consider it the finest hardy garden Lily. Outstanding because of its great vigor, health, freedom of bloom, large size (much larger than pictured), beauty of flowers, fragrance and graceful form. They commence blooming in July right after the Regals and continue blooming for 3 to 4 weeks. Thrive in full sun or partial shade. Plant in a well-drained spot 6 to 7 inches deep and you can leave them undisturbed for several years. We send you large bulbs that will bloom this summer. The strong stems will grow 4 to 6 feet tall with many lovely blooms on each stem. Our bulbs come direct from the originator.

*Regal Lily, America's Favorite*

#### NEW LOVELY PURE WHITE REGAL LILY

**B 86** For many years the hybridizers have been working for a pure white trumpet Lily. Now we have it, the lovely pure White Regal (Album). It blooms in the late spring and early summer. Pure snow-white large flowers, 6 to 8 inches long, with wide open trumpet. Delightfully fragrant. Borne in clusters on strong stems 3 to 4 feet tall. Will grow from coast to coast, multiplying and giving you more flowers each year. Without doubt this is the finest pure white hardy trumpet Lily we have ever tested. Plant them 7 inches deep in sun or part shade, in a well-drained spot and leave them alone. Will come up year after year.

Large Bulbs, **Each 40c, 3 for \$1.00, 6 for \$1.85** Postpaid

#### BEAUTIFUL RUBRUM LILY

**B 65 Rubrum Lily** (below) is considered by many to be the loveliest of all. Blooms from late July into September. The flowers are bright pink edged white with small maroon spots. Strong stems 3 to 4 feet tall. Perfectly hardy. Plant in well-drained soil about 8 inches deep, in full sun or part shade. Will bloom this summer, increasing in beauty each passing year. The broadly reflexed, wavy flowers are very beautiful in the garden and also when used as cut flowers. They blend perfectly with other colors. Mixing  $\frac{1}{3}$  to  $\frac{1}{4}$  neutral Peat Moss (see page 6) with the soil when planting Lilies is beneficial.

## PLANT INTERSTATE'S *Fragrant*

#### REGAL LILY, America's Favorite

Regal's superior qualities have made it America's most popular garden Lily, grown from coast to coast. Blooms in June-July on stems 3 to 4 feet tall. Big clusters of the lovely flowers, much larger than pictured. Fragrant, snow-white with a golden throat and tinged pink on the outside. Comes up year after year, multiplying and giving you more and more flowers each passing year. After it is established, there are 15 to 25 flowers on a stem. Plant them 7 to 8 inches deep in well-drained, ordinary soil, in a sunny or partly shaded location. Our strain of Regals is especially fine, being selected each year from the best flowers. These bulbs will bloom this season but the Jumbo bulbs will produce more flowers. **POSTPAID.**

Blooms Spring, Summer and Fall

**B 73 Orange Triumph.** This new Umbellatum type Lily is one of the very best orange colored. Perfectly hardy, it thrives everywhere, multiplying and increasing in beauty each year. Flowers are upright, in big clusters on strong 2 to 3 foot stems. Color is a glowing orange tinted pink. Blooms in July-August. Plant 7 inches deep in sun or part shade. Will bloom this summer and many more to come.

**Each 40c, 3 for \$1.00, 6 for \$1.85** Postpaid

**B 83 Philippine Lily, White Excelsior.** This is a new improved strain with larger and purer white flowers. It is a magnificent variety to close the Lily season. It starts blooming in late summer and continues right up to frost. Lovely in the garden and fine for cutting. Easy to grow and sure to bloom. The lovely white flowers are large, 7 to 8 inches long and delightfully fragrant. Come on strong stems 4 to 6 feet tall. Hardy, come up year after year. Plant 7 to 8 inches deep in a well-drained soil, in full sun or part shade.

# Lilies FOR GARDEN SPLENDOR

## Magnificent Auratum Lily

**B 68 Auratum Lily.** Pictured at right. Often called the Gold Banded Lily. This is one of the finest of all Lilies and is grown from coast to coast. Blooms from late July into September. Very large flowers are waxy white with small crimson spots and each petal has a center stripe of gold. So fragrant that a cluster will perfume a room. Grows 4 to 6 feet tall with 15 to 25 flowers. Plant 7 inches deep in well-drained soil, in full sun or part shade. They will bloom this summer and for years to come. Afternoon shade makes all lily flowers last longer.

Selected Large Bulbs, **Each 75c, 3 for \$1.65, 6 for \$2.85** Postpaid

**B 84 Red Coral Lily** (Tenuifolium). The small-fragrant bright scarlet flowers highlight the garden in late spring and early summer. Grows only 18 inches tall. They are especially fine for Rock Gardens and out-of-the-way nooks, not too shady, where larger flowers would be out of place. Thrives everywhere from coast to coast, Canada to the Gulf. The bulbs are rather small but they are sure to bloom this spring. Plant 5 inches deep. Comes up year after year. At our very special price you can plant them by the dozen.

**Each 30c, 3 for 70c, 5 for \$1.00, 12 for \$2.00** Postpaid

Rainbow Hybrid Lilies, Below

These Rainbow Hybrid Lilies (pictured below) are an entirely new strain created by Jan de Graaff. The gay, sparkling colors range from light yellow to gold, through shades of orange, apricot, salmon, to deep mahogany-red. Great heads of large upright flowers on stems 18 inches or so tall. Very hardy, easy to grow, they thrive North, South, East and West. Once planted they come up year after year, for a lifetime.

## Delphiniums

**M 100 Cliveden Beauty**—Many think this is the finest of all light blue flowers. Grows 3 to 4 feet tall and after the first great burst of bloom in early summer, it repeats at intervals. A healthy grower that lasts for many years. Lovely in the garden and very fine for cutting.

**5 for \$1.00, 2 for 50c Postpaid**

**M 101 La Martine**—This fine plant should be in every garden. The rich dark blue flowers are so lovely in the garden and for cutting. A great mass of flowers in early summer and at intervals all summer. When you cut a flower spike, another grows out to bloom later on. A healthy grower, 4 feet or so tall, lasts for years.

**5 for \$1.00, 2 for 50c Postpaid**

**M 102 Pacific Hybrids**—The individual flowers are very large, often 2½ inches across on spikes 3 to 4 feet long. The colors range from white, sky-blue to deep blue, purple, violet and exquisite shades of orchid-pink. The plants grow 5 to 7 feet tall. Cut the stems after the first great burst of bloom and they will repeat.

## Lythrum

### MORDEN PINK

#### A Remarkable New Perennial

**M 202 Lythrum, Morden Pink** is an outstanding perennial. It has proven satisfactory from coast to coast. Originating in Canada it is hardy even in the coldest states. Makes a neat bushy plant 30 to 36 inches tall that blooms continuously right through summer's heat. It thrives with almost no care, in sun or part shade. It is not at all fussy about soil. In the fall, the foliage turns to brilliant red. We recommend it highly as being one of the easiest-to-grow and most satisfactory perennials we have ever grown.

**6 for \$1.75, 3 for \$1.25, Each 50c Postpaid**

**M 201 Lythrum, Dropmore Purple**—This new hybrid, also from Canada, is like the Morden Pink except the flowers are rosy-purple, very attractive in the garden. Blooms all summer. Thrives everywhere, any ordinary soil, in sun or part shade. Lives for many years, requiring no special attention.

**3 for \$1.50, Each 60c Postpaid**

*Japanese Iris*

**M 182 Kaempferi Iris (Japanese)**—In the early days called Children of the Gods. Few plants can compare with them for spectacular beauty. Bloom in June and July after the other Iris are through. Large, flat flowers, some large as dinner plates, atop strong stems around 3 feet tall. Colors of white, purple, red, pink, blue, lavender. The foliage itself is attractive. Plant so the crown is 2 inches below ground level. Like a sunny spot, rich soil and abundant moisture, especially early in the season and during blooming. They like an acid soil and will not tolerate lime. Use plenty of peat moss. Mulch especially during the first winter.

**Mixed colors 3 for \$1.25, Each 50c Postpaid**

*Golden Shower*

**M 89 Coreopsis Golden Shower** is one of the best hardy new perennials. The bright yellow star-like flowers, 1 to 1½ inches across, are produced right through the hottest summer weather. The bright green, feathery foliage is attractive in itself. It makes a neat, bushy plant 24 to 30 inches tall that will brighten up a dull corner and add color to a border. Does well in full sun or part shade in ordinary garden soil.

**3 for \$1.50, Each 60c Postpaid**

**M 150 Gypsophila, Pan. (Baby's Breath)**—Completely covered with small white flowers in July-August. In the garden and in bouquets, it gives an airy effect no other flower can give. Grows 2 to 3 feet tall.

**3 for \$1.00, Each 40c Postpaid**

### Dianthus, Little Joe

**M 112** This is one of our choicest hardy low-growing perennials. It makes a compact, bushy plant only 6 inches tall with handsome blue-green foliage. The rosy-red flowers, 1 inch across, are produced from late spring to freezing. Excellent for borders, foreground and rock gardens.

**3 for \$1.50, Each 60c Postpaid**

### PLUMBAGO, A strikingly beautiful blue flower

**M 239** Visitors to our nurseries always ask us the name of this plant as they see the long rows across the field. The open flowers are a rich blue, the tiny buds a bronzy-red, giving the entire plant a beautiful and unusual appearance. It is always in bloom from July almost to frost. For an edging plant or a low-growing (it grows only 6 to 8 inches tall) solid bed, it simply cannot be beat.

**3 for \$1.50, Each 60c Postpaid**

**M 224 Balloon Flower (Platycodon, Bell-flower)**—A very satisfactory hardy perennial. Large, showy, deep blue, bell-shaped flowers are produced profusely all summer. Grows 18 to 24 inches tall. Prefers sun but will stand a little shade.

**3 for \$1.00, Each 40c Postpaid**

*Gypsophila, Bristol Fairy*

**M 149 Gypsophila, Bristol Fairy**—Large panicles of small, perfectly double white flowers produced profusely all summer. A favorite for bouquets. Hardy, grows 3 feet tall, in full sun. A little lime mixed in the soil will do wonders. Our plants are grafted to keep the strain pure.

**3 for \$1.75, Each 65c Postpaid**

**M 151 Gypsophila, Oldhamiana Pink**—Great masses of small light pink flowers August to frost. Lovely in the garden, very fine for cutting. Grows 2½ feet tall.

**4 for \$1.00, Each 35c Postpaid**

# Distinction for Your Garden

ARTEMISIA, Silver King

**M 61 Artemisia, Silver King**—This hardy plant is highly prized because of its frosty silvery-white foliage. It is attractive in the garden and much used in bouquets and arrangements. Also can be cut and kept for winter use. Grows 3 feet tall, in sun or a little shade, any ordinary soil.

**3 for \$1.00, Each 40c Postpaid**

## HARDY AMARYLLIS

(*Lycoris Squamigera*)

**B 151** Pictured on envelope. This is the amazing bulb which has attractive green foliage in the early spring. This foliage then dies down and disappears. In the late summer the flower stalk shoots up 2 feet high with large lily-shaped flowers, a lovely lilac-pink. There are often 8 to 12 flowers. These bulbs are hardy here but we do not advise planting them in coldest states like Minnesota. Plant the bulbs so the top is covered with 4 to 5 inches of soil. We also recommend a light winter mulch to prevent alternate freezing and thawing.

**Large No. 1 Flowering Bulbs, Each 50c, 3 for \$1.25 Postpaid**

VERONICA, Long. Sub.

**M 260 Veronica, Long. Sub.** (Speedwell)—Here is a fine perennial that should be in every flower garden. It is one of the handsomest blue-flowering plants. The deep blue flowers are produced from July into September on 18 to 24 inch stems. Hardy, it gets better each passing year. Especially fine in the garden border and excellent for cutting. Grows easily in any ordinary soil, in sun or part shade. Grows 2 feet tall. We are making a very special price on this great plant because we want thousands to enjoy it in their own garden.

**We will also include without Extra Charge  
1 Hardy Amaryllis Bulb Worth 50c**

**M 235 Penstemon, Rose Elf**—Without doubt, this new perennial is one of the finest ever introduced. In the first place it is such a healthy plant with rich green foliage that is attractive if it never had a flower. Then in June, July, into August, it produces such an abundance of the lovely coral-pink flowers on graceful spikes 2 to 3 feet tall. You will love them in the garden and they are fine for cutting. We have found it entirely hardy and it gets more attractive each passing year. Prefers a sunny spot but will do all right in partial shade. We recommend this very highly and are making special prices so thousands will find out for themselves how wonderful it is.

# UNIVERSITY OF NEBRASKA

## Chrysanthemums

Mr. Glenn Viehmeyer of the Nebraska North Platte Substation is creating some Mums that withstand the severe conditions they have at North Platte, proving entirely hardy there and also withstanding the early frosts and freezes. We have tested them at Hamburg and found them to be outstanding. We offer six varieties, convinced that their freedom of bloom, colorful flowers, the healthy, vigorous plants and the frost and freeze resistance, will make them very popular.

**M 811 Arapahoe**—Very large double flowers 4 to 5 inches across, especially if disbudded. Color is a rich red with bronze reverse and the petals are long with a slight waviness adding to its attractiveness. Strong upright plants, 3 feet tall, with dark green foliage. Stands up against wind and rain. Withstands as low as 29° with no injury to flowers. In fact it has stood 7° below freezing with very slight damage to the flowers and buds. That means it will give you lovely flowers after normal frosts, or slight freezes.

**M 821 Cody**—Grows only about a foot tall and 18 to 24 inches wide. Ideal for borders, or a solid bed. Starts blooming in late summer and continues right up to cold weather withstanding frosts and light freezes. The 2 inch flowers completely cover the plant. The color is a lovely rosy-lavender with a white center. Does not fade but becomes even more attractive as flowers age.

**M 835 Leshara**—Makes a very bushy, well-branched plant around 24 inches tall that is completely covered with the fully double flowers, 2 to 2½ inches across. The color is a charming mulberry red which becomes old rose as it ages, always attractive. The flowers are not damaged by frosts, in fact they will withstand down to 25°.

**M 849 White Cloud**—This is certainly a magnificent Mum, a solid mass of white from mid-September to hard freezing. Makes a bushy plant around 30 inches tall. Flowers are double, 3 to 4 inches across. It withstands frosts, showing very little injury at 29°.

**M 850 W. P. Snyder**—Described and pictured on page 66. However the flowers are not as red as pictured. The color is a very attractive blending of tangerine, rose and golden-buff, one of the brightest flowers in our fields. The blooms are very double, 2½ to 3 inches across. Very free bloomer.

**M 859 Lee Powell**—Introduced spring of 1951, another fall's bloom confirms that this is a great Mum. Makes a strong, healthy, well-branched plant nearly 3 feet tall that is a solid mass of golden-yellow. The flowers are fully double, large, 3½ to 4 inches across, perfect form, a rich bronzy, golden-yellow. Starts blooming the third week of September.

Each 60c, 3 for \$1.50 Postpaid

**M 860 Orchid**—A new variety created by Mr. Roy Mosnat and introduced by us last spring. It has the longest blooming season and is the free-est bloomer we know. Starts blooming in mid-summer and never stops until severe frosts. The 2 to 2½ inch flowers are an orchid-pink, greatly resembling Pyrethrum blooms. Brings beauty to the garden for so many weeks and their long stems make them extra fine for cutting. Makes a rounded perfect plant a little over 2 feet tall and 30 inches wide. Vigorous healthy grower that has proven exceptionally hardy with us. Plant a group of 3 and you can cut a bouquet almost daily for weeks and still leave enough flowers on the bush to make a beauty spot.

The flowers are 2 to 2½ inches across and completely cover the entire plant for many weeks in late summer and fall. Makes a rounded bush about 2 feet tall and 2 to 3 feet wide. Hardy, lasts for years. Easy to grow in ordinary soil in full sun or part shade. Easy-to-follow Planting Instructions sent with each order. These are by far the most popular Mums we have ever sold. All who see them, want them. Be sure and plant some in your own garden. Also if you wish we will send some postpaid direct to your friends, enclosing a gift card with your name.

**M 815 Bronze Queen**—Here is the perfect fall coloring, golden-bronze with touches of copper and tangerine. A tremendous bloomer and the last flowers seem even more attractive than the first.

**M 824 Crimson Queen**—By far the finest Red Cushion we have ever seen. The color is such a rich shining crimson. A perfect mound of bloom.

**M 843 Purple Queen**—People never knew there was a Cushion Mum of this coloring. And there never was until we introduced this. Most folks agree that it is the most spectacular of all Cushions. The striking purple flowers are lovely from the first opening bud until severe freezing ends the season weeks later.

**M 853 Yellow Queen**—The richest bright pure yellow, a color that lights up the entire yard. In the garden, in a bouquet or arrangement, it is outstanding and a color that adds cheer and life.

# New Superior Chrysanthemums for Your Fall Garden

## BLOOM ABUNDANTLY THIS FALL

These Chrysanthemums (called "Mums" for short) were selected from thousands of seedlings. They are new and far better than varieties we thought so good only a few years back. Start blooming in September. Flowers are very much larger and far more attractive than pictured. We recommend putting 3 to 4 inches of sand on your Mums over winter to prevent ground from heaving.

**Your Choice All Mums on This Page,  
Alike or Assorted, Postpaid.**

**Each 50c, 3 for \$1.35, 6 for \$2.50**

**M 820 Christopher Columbus.** You will discover this is one of the very best white Mums. From mid-September a solid mass of large 3-inch double flowers, snow-white with creamy center. 24 inches tall.

**M 823 Courageous.** Large, double 3½-inch flowers of glowing ruby-red. 26 inches.

**M 825 Dr. L. E. Longley** (Not Pictured). If you saw this great new Mum you would want not just one but several plants. Large, fully double, 3½-4-inch blooms of the most exquisite rosy-lavender. They come singly on long stems, very fine for cutting. Starts blooming in late August and the plant is completely covered for weeks. 24 inches.

**M 830 Golden Hours.** From late August till frost, the brilliant, fully-double, high-crowned 3-inch blooms of richest bright yellow are produced so freely. A bush of gleaming gold, favorite of all. 26 inches.

Nye's Favorite

**M 837 Meditation** (Not Pictured). Few flowers are as colorful in the garden as this. And it makes a wonderful cut flower. Large, very double, high-centered two-toned blooms of reddish-peach with a golden-orange reverse. Stately 30-inch plants.

**M 838 Nye's Favorite.** Our sales certainly prove that this is a favorite. Great big flowers, almost 4 inches across, bright sparkling pink with cerise center and petals tipped with gold. 24 inches.

**M 839 Olive Longland.** Experts rate this the best of the pastel colored Mums. Large, very double, 3-3½-inch flowers of apricot toned salmon-pink. 22 inches.

**M 861 Osceola** (Not Pictured). Introduced last spring. Starts blooming in early September. The buds are a bright orange-tangerine and open into big, double flowers of gold with an orange undertone, striking fall colors. One of the greatest Mums we have ever seen. 36 inches.

Golden Sunset

**M 831 Golden Sunset.** In our large fields this is always outstanding. Large, double 4-inch flowers of burnished copper with flaming red center. Completely cover the entire bush for weeks from early September to severe frosts. A "must-have." Far brighter than pictured. 27 inches.

# Inter-State's Glads

## DOUBLY GUARANTEED

**New Varieties**  
**Better Colors**  
**Larger Spikes**

We guarantee our Gladiolus bulbs to please you when you get them, ALSO WHEN THEY BLOOM. When you receive the bulbs, if you are not satisfied, return just one-half of them and we will refund the money you paid us for all of them. When they bloom, if you are not delighted, you may select from our catalog, without cost, anything you wish equal to the amount you paid us for the glads.

This spring we are very proud to be able to offer you so many new, choice varieties. They are definitely better and more colorful than the older kinds. We have priced them so that many thousands can enjoy them. You will be able to win prizes at the flower shows. They will bring new, outstanding beauty to your garden. For cutting, Glads are the best of all because they are so beautiful, so easy to arrange and last so long. These new Glads will make your bouquets and arrangements "Out-of-this-world." Your friends will envy you.

Because we take great care in selecting our Glads we sell them by the millions, sending them to every state. We offer 2 sizes of bulbs. The LARGE are 1 1/4 to 2 inches across (diameter) and the MEDIUM are 1 to 1 1/4 inches across. All will bloom gorgeously, the larger bulbs producing bigger spikes. They are so easy to grow. Plant them 5 to 6 inches deep and 6 to 9 inches apart. Make your first planting when you make your early garden. Then make several plantings, 2 weeks apart and you will have the lovely flowers for many weeks. Takes around 75 days from planting to blooming. ALL GLADS ARE POSTPAID.

### GLAD VARIETIES

# Evergreens

## FOR PERMANENT BEAUTY

Our evergreens are grown here at Hamburg and will be freshly dug and shipped Postpaid. Generally we can start shipping evergreens in mid-March. When they arrive, plant carefully at once being sure the roots are not exposed to the air, wind or sun. Water thoroughly if ground is dry and weekly afterwards unless it rains. Evergreens are a permanent life-time possession so give them good care. If bothered by dogs use DOGZ-OFF as shown on page 6.

**E 8 Silver Cord Juniper**—A new variety with attractive silver-blue foliage. It grows upright and if never trimmed would eventually grow 15 to 20 feet tall and 6 feet wide. But it can be sheared to any desired height and width. Ideal for corner accent planting where you want a tall, rather narrow evergreen. Postpaid.

18 to 24 inches tall. . . . **Each \$4.00, 2 for \$7.50**  
 2 to 3 feet tall. . . . **Each 5.00, 2 for 9.50**  
 3 to 4 feet tall. . . . **Each 7.00, 2 for 13.50**

*Brewer Hybrid Arbor Vitae*

**E 6 Brewer Hybrid Arbor Vitae**—A new evergreen that we recommend very highly for planting at Kansas City, St. Louis, and south and east thereof. Without any shearing it makes a very compact, rounded plant with the richest green color of any evergreen we know. It is a dwarf grower, only 4 to 5 feet tall and 4 feet or so wide. Postpaid.

12 to 18 inches tall. **Each \$3.25, 2 for \$6.25**

*Below, Nick's Compact Pfitzer Juniper*

*Pfitzer Juniper*

**E 5 Pfitzer Juniper**—This is the most popular and widely planted of all evergreens. It makes a low-growing, spreading plant up to 4 feet tall and 6 feet or more wide. However it stands shearing perfectly so you can trim it to any desired height and width. The foliage is a rich deep green. Planted all over the United States, in full sun or part shade. Perfect for foundation, porch and corner plantings. Postpaid.

12 to 18 inches wide. . . . **Each \$3.50, 2 for \$6.50**  
 18 to 24 inches wide. . . . **Each 4.50, 2 for 8.50**  
 2 to 3 feet wide. . . . **Each 6.00, 2 for 11.00**

**E 1 Hetzi Blue Juniper**—This is a new low-growing, spreading evergreen similar to the Pfitzer above. But the foliage is a beautiful silvery-blue color. It thrives North, South, East and West. Ideal for foundation and porch planting, in corners, in full sun or part shade. Always attractive winter and summer. Grows about 4 feet tall and 6 to 8 feet wide. Will become very popular because of its blue color. Postpaid.

12 to 18 inches wide. . . . **Each \$3.25, 2 for \$6.25**  
 18 to 24 inches wide. . . . **Each 4.00, 2 for 7.50**  
 2 to 3 feet wide. . . . **Each 5.00, 2 for 9.00**

**E 7 Hillborn Globe Juniper**—Makes a rounded plant about 4 feet tall and almost as wide. Especially fine for corner and accent planting where you cannot use a tall growing variety. The original plant was a selection from the Dakota badlands, so it is very hardy, thriving under severe conditions. It also does well in more favorable sections. Grows in full sun or part shade. Postpaid.

12 to 15 inches tall. . . . **Each \$3.25, 2 for \$6.25**  
 15 to 18 inches tall. . . . **Each 4.00, 2 for 7.50**

### NICK'S COMPACT PFITZER JUNIPER

**E 2 Nick's Compact Pfitzer Juniper**—This is exactly like the Pfitzer Juniper listed above but it is more compact and does not grow as wide nor as tall. Makes a very compact plant about 3 feet tall and 5 to 6 feet wide. Same rich green foliage. Especially fine for places where room is limited. Postpaid.

12 to 18 inches wide. . . . **Each \$3.75, 2 for \$7.25**

# America's Finest Annuals

BEAUTIFUL, STURDY FLOWERS . . . . ALL-AMERICA WINNERS

New and Improved Flower Seed Selections for 1952

*Petunia, Ballerina*

**801 Petunia, Ballerina**—This new Hybrid was so outstanding that it won the All-America Selections Honorable Mention Award for 1952. Large flowers,  $3\frac{1}{2}$  to 4 inches across of glowing salmon create a color beauty spot in the garden from late spring to frosts. Considered the finest single Petunia ever created. Start them indoors and transplant outside when weather warms up. **Pkt. 35c**

**802 Celosia, Giant Pampas Plume**—Large, feathered plumes of many bright colors, bronze, copper, gold, sunset and reds, on long stems. Blooms right through hottest summer weather. Striking in the garden and fine for cutting. Grows about 3 feet tall, very easy to grow, requires no attention except watering in dry weather. Once you see this, you and your neighbors will want more. **Pkt. 25c**

*Zinnia, Persian Carpet*

**803 Zinnia, Persian Carpet**—This new low-growing variety won an All-America Selections Honorable Mention Award for 1952. Each flower only  $1\frac{1}{2}$  inches across is perfect form, like a tiny dahlia, many lovely pastel colors, with the tips of the petals always a contrasting color. Starts blooming early and continues right up to frost. Each plant is a different color yet all blend together, reminding you of a lovely Persian Carpet. Ideal for borders or a solid bed, for window boxes and apartment gardens. Grow less than a foot tall. Excellent for cutting and corsages. **Pkt. 25c**

*Zinnias, Giant Hybrids*

**804 Zinnias, Giant Hybrids**—These new Burpee Hybrids are the loveliest and largest Zinnias ever created. Immense fluffy, ruffled flowers with graceful curved petals, entirely free from stiffness and harshness. Shades of orange, unusual pinks, carmine, rose, vermillion, scarlet, corals and many others, all alive with color. Beautiful in the garden and wonderful for cutting. Without fail, you should plant these. So easy to grow.

**A Packet with over 100 seeds for only 25c**

**805 Snapdragons, Burpee's New Tetra**—These new Giant Ruffled Tetraploid Snapdragons are the largest flowered of all. Distinctly ruffled with richer, brighter, clearer colors, beautiful tone blendings and combinations. You will be amazed at their striking beauty. **Pkt. 15c**

*Marigold Glitters*

**806 Marigold Glitters**—A 1951 All-America Selections winner. This new chrysanthemum-flowered Marigold has bright lemon-yellow flowers, fluffy and 3 inches or more across. Freely produced on long stems, from early summer to frost. Grows  $2\frac{1}{2}$  to 3 feet tall. They certainly light up the garden and are very fine for cutting. **Pkt. 25c**

*Cosmos, Fiesta*

**807 Cosmos, Fiesta**—This magnificent new annual won the top Silver Medal All-America Selections Award for 1952. Brings a new color to the popular Cosmos family. The bright orange petals are flashed with scarlet. Flowers are semi-double, ruffled, with lacy foliage. Makes a compact plant  $2\frac{1}{2}$  feet tall that blooms all summer long. Showy in the garden and excellent for cutting. Grows everywhere. **Pkt. 25c**

*Tithonia, Torch*

**808 Tithonia, Torch**—This new summer annual was the Top All-America Selections winner for 1951. Grows easily as a Zinnia and starts blooming early and continues to frost. The flowers resemble single dahlias, brilliant orange-scarlet with bright gold centers. The plants are compact, shoulder high, ideal for a summer hedge and background. A good cut-flower also. Spectacular in the garden and requires no care except watering in dry weather. Be sure and try it. **Pkt. 25c**

## MARIGOLDS

Bloom July to Frost

**166 Marigold, All-Double Harmony (15)**—Charming, Scabiosa-like flowers with deep orange center petals flanked by wide, dark maroon-brown petals. Very free-flowering, especially in dry weather. **Pkt. 10c**

**163 Marigold, Burpee Gold (30)**—Gives an abundance of glorious deep orange double blooms,  $3\frac{1}{2}$  inches across. The long petals are loosely arranged. Blooms and foliage are entirely odorless. **Pkt. 10c**

**164 Marigold, Sunset Giants Mixed (36)**—Tall, vigorous plants with enormous dahlia-like blooms. Largest flowered of Marigolds in shades of orange and yellow. **Pkt. 10c**

**170 Marigold, Yellow Supreme (30)**—Creamy yellow blossoms of the carnation flowered type. **Pkt. 10c**

**165 Marigold, Red Head**—Burpee's New Dwarf Single French Marigold which is an All-America Winner we are proud to list for our flower lovers. Well-shaped flowers made up of a single row of broad, over-lapping petals and a wide, crested center of many, tiny, erect florets. The edges of the petals are slightly curled, showing a beautiful gold reverse, adding to the attractiveness of the flowers which possess all the subtle shades of gold, bronze and auburn. When first opening, the blooms are a rich, mahogany-red, changing to auburn and later to bronze and gold. Plants are dwarf, quite compact and free-blooming, about 1 ft. tall. These are especially fine for borders because the plants are so bushy and completely covered with flowers. Easy to grow and very attractive. **Pkt. 15c**

## BEANS

### K 23 Nitragin only 15c

Be sure to inoculate your Beans, Peas and Sweet Pea Seeds with Nitragin. It greatly increases the yield. A garden size packet costs only 15c postpaid and is enough to treat 3 or 4 pounds of all 3 seeds.

One packet of Bush Beans will plant 25 feet and 1 pound 140 feet. Make successive plantings of bush beans and have fresh beans all summer and fall.

### DWARF GREEN POD BUSH BEANS

**\*401 Burpee's Stringless Green Pod** (50 days)—This is, by far, our most popular bush bean. It produces long, round meaty pods that are always tender and absolutely stringless even when full grown. It cannot be beat for table use or canning. Its quality, productiveness and tenderness have never been surpassed. We believe that it will produce more than any other variety and produce for a longer period of time.

**Big 3 Oz. Pkt. 15c; 1/2 Lb. 30c; 1 Lb. 55c**

**400 Improved Logan** (52 days)—Another one of the more popular stringless varieties. Pods set in clusters with 6 inch long, light green, meaty and smooth beans. It stands heat well and is excellent for canning and freezing. A very hardy, productive tender-green type. Plants are 16 to 20 inches tall and upright.

**Big 3 Oz. Pkt. 15c; 1/2 Lb. 35c; 1 Lb. 65c**

**\*403 Tendergreen** (53 days)—A new green bean so tender that it fairly melts in your mouth. Absolutely stringless, very highest quality and productive. Fine for table use and canning and best of all for freezing.

**Big 3 Oz. Pkt. 15c; 1/2 Lb. 35c; 1 Lb. 65c**

**408 Topcrop** (48 days)—Another top medal award winner. High merit for both canning and freezing. Pods 6 1/2 inches long, round and slightly curved. Very productive.

**Big 3 Oz. Pkt. 15c; 1/2 Lb. 35c; 1 Lb. 65c**

### DWARF WAX POD BEANS

**\*406 Brittle Wax** (54 days)—This is our best and most popular wax bean. Superb quality, very early and very productive. The long, round pods are perfectly stringless at all times, very tender, light yellow. Many think this the finest quality of all beans, wax or green. Easy to grow, blight resistant, stands dry weather.

**Big 3 Oz. Pkt. 15c; 1/2 Lb. 35c; 1 Lb. 65c**

**407 Puregold Wax** (58 days)—All-America Bronze Medal Winner. Pods are 5 1/2 to 6 inches long, slim round golden yellow. The bush is dark green and about 13 inches high. A good canning variety which is stringless. Resistant to the common bean Mosaic.

**Big 3 Oz. Pkt. 15c; 1/2 Lb. 35c; 1 Lb. 65c**

**Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 45c**

**\*426 Improved Chantenay** (70 days)—The outstanding favorite with people who grow carrots in their garden. This is a very choice strain producing large, thick, six-inch orange roots, very tender, high quality and free from hard core. Very heavy yielder.  
**Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 45c**

**430 Oxheart** (72 days)—Especially good for rather stiff, hard soil because the roots are short and stubby. A good keeper. Bright orange, tender and sweet.  
**Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 45c**

**Eight ounces of 3% DDT dust per 30 feet of row applied at planting time for both carrot weevil and carrot rust fly will give excellent control with no effect whatever on the carrots.**

## CUCUMBERS

**One Packet will plant 15 hills; one Ounce, 65 to 70 hills.**

**\*455 Burpee's Hybrid** (60 days)—Burpee's Hybrid Cucumber outyields open pollinated varieties because the vines continue to produce their fruits more profusely long after the others have ceased. Vines are extremely vigorous, long lived and bear an abundance of well-formed green fruits of handsome appearance, 8 inches and more long, 2 1/2 inches wide, square at both ends with medium seed cavity and crisp, white flesh of excellent quality.  
**Pkt. (30 seeds) 30c; 3 Pkts. 75c; 5 Pkts. \$1.20; 1/2 Oz. \$2.75**

**452 Chicago Pickle** (58 days)—Very popular early variety. Very productive. Pickles are uniform size, medium green and square ended.  
**Pkt. 10c; 1/2 Oz. 20c; 1 Oz. 30c**

**\*453 Improved Long Green** (62 days)—The best and most popular all-purpose cucumber, fine for slicing and pickling. It does well in every section, producing heavily when other kinds give up. It is medium dark green, crisp, few seeds.  
**Pkt. 10c; 1/2 Oz. 22c; 1 Oz. 35c**

**\*454 Select National Pickling** (55 days)—Our most popular pickling type. Of uniform size and color, as firm after pickling as before. Very early and enormously productive. Even size, straight, with square blunt ends, deep green color.  
**Pkt. 10c; 1/2 Oz. 20c; 1 Oz. 30c**

**456 Straight Eight** (58 days)—A new white spine type, very productive, long straight fruits of an ideal green color. Averages about 8 inches long.  
**Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 40c**

## SWEET CORN

**One packet will sow 60 feet or more; 1 Lb. 400 feet.**

**444 Alpagold** (60 days)—This new variety is by far the best quality extra early yellow sweet corn we know. Ripens just 60 days after planting. Good size ears, sweet and delicious. Resistant to drought and smut.

**Big 3 Oz. Pkt. 18c; 1/2 Lb. 45c; 1 Lb. 80c**

**\*443 Aristogold Bantam Evergreen** (87 days)—This is the largest, high quality yellow hybrid sweet corn we have ever seen. About a week later than Golden Cross, the ears are a little larger, equally fine quality and even more productive. The two together make a great team. Stands the heat, drought and wind.

**Big 3 Oz. Pkt. 16c; 1/2 Lb. 40c; 1 Lb. 75c**

**448 Country Gentleman** (90 days)—The late white corn with long, deep grained kernels irregularly arranged. Often called the shoe-peg type. A heavy yielder.

**Big 3 Oz. Pkt. 10c; 1/2 Lb. 22c; 1 Lb. 39c**

**447 Golden Bantam** (78 days)—The favorite yellow sweet corn for many years. Very early, small ears, tender and sweet.

**Big 3 Oz. Pkt. 12c; 1/2 Lb. 25c; 1 Lb. 45c**

**\*445 Golden Cross Bantam** (82 days)—Our most popular yellow hybrid, producing 12 rowed ears, 8 inches long. It is about 3 times as productive as Golden Bantam. It is also resistant to bacterial wilt which often causes failure with early yellow corn. We honestly believe that once you grow this corn, you will always want it. The kernels are so tender and sweet they fairly melt in your mouth.

**Big 3 Oz. Pkt. 15c; 1/2 Lb. 35c; 1 Lb. 65c**

**\*452 lochief** (89 days)—This All America Gold Medal Winner for 1951 is now rated the very best main crop yellow sweet corn. Ideal for eating fresh, canning and freezing. Ears 8-9 inches long, filled right to the tips, very tender and finest quality. Heavy yielder. Stands drought.

**Big 3 Oz. Pkt. 16c; 1/2 Lb. 40c; 1 Lb. 75c**

**451 Silver Cross Bantam** (83 days)—We rate this the best hybrid white sweet corn. Large ears 8-9 inches long, very tender, finest quality, heavy yielder. Eat fresh, can or freeze.

**Big 3 Oz. Pkt. 15c; 1/2 Lb. 40c; 1 Lb. 70c**

**449 Stowell's Evergreen** (94 days)—The standard main crop white sweet corn. Large ears, sweet and stays tender a long time. Especially fine for canning.

**Big 3 Oz. Pkt. 12c; 1/2 Lb. 25c; 1 Lb. 45c**

**\*446 Tendergold** (75 days)—A very fine yellow hybrid corn that is sweet, tender and of finest quality. Matures a few days earlier than Golden Bantam. Much more productive and holds its quality two to three days longer than other corns. The golden ears are 12 rowed about 8 inches long.

**Big 3 Oz. Pkt. 15c; 1/2 Lb. 35c; 1 Lb. 65c**

**\*450 Tendermost** (83 days)—The most tender of all our yellow hybrids, giant size kernels sugary-sweet. Very large ears averaging nine inches in length with 14 to 16 rows of regular kernels. A high-yielder that stays sweet and tender on the stalk for nearly two weeks. Resistant to smut and ear worm.

**Big 3 Oz. Pkt. 16c; 1/2 Lb. 40c; 1 Lb. 75c**

## ALL SEASON COLLECTION

**1 Big 3 Oz. Pkt. each of  
Alpagold, Tendergold, lochief  
445A All 3 for 45c**

## LETTUCE

**One Packet of seed will sow 40 to 50 feet, one Ounce, 200 feet.**

**\*462 Black Seeded Simpson** (46 days)—Our most popular loose leaf lettuce. The broad, frilled light green leaves are crisp, tender and of excellent quality. Very early, does well everywhere. **Pkt. 10c; 1 Oz. 30c**

**\*464 Early Prizehead** (45 days)—An early, non-heading home garden variety. The crimped, crisp, tender leaves are tinged brownish red. **Pkt. 10c; 1 Oz. 30c**

**463 Great Lakes Lettuce** (75 days)—A sure-heading variety that is famous for crisp heads even in hot weather. All-America winner of excellent quality. Try this variety this year, you will like it. **Pkt. 15c; ½ Oz. 30c**

**466 Iceberg** (82 days)—Large, solid heads, white inside, crisp and of excellent quality. A popular head lettuce. **Pkt. 10c; ½ Oz. 20c**

**467 Imperial No. 44** (70 days)—If you have been unable to grow head lettuce, try this variety. It is early and will stand lots of heat. The heads are compact and medium large. **Pkt. 15c; ½ Oz. 25c**

## PARSNIPS

**One Packet will sow about 40 feet; 1 Oz. 200 feet.**

**488 Hollow Crown** (125 days)—The most popular variety. Smooth white skin with rich tender, sweet flesh. Long, tapering roots about 12 inches long. They can be left in the ground over winter. Dig them in early spring before growth starts. **Pkt. 10c; 1 Oz. 25c**

## PEPPERS

**496 California Wonder** (70 days)—A good stuffing pepper—large size, almost square shape, very thick walls, sweet, tender and good flavor. Smooth glossy green, becoming red when ripe. **Pkt. 10c; ½ Oz. 45c**

**500 Long Red Cayenne** (70 days)—A favorite hot sort used for pickling, canning and drying. **Pkt. 10c; ½ Oz. 40c**

**497 Ruby King** (68 days)—A popular variety for home gardens. Bears dark green fruits, about 4½ to 6 inches long, which turn a ruby red color when ripe. Fruits are about 3 inches thick. One of the best types for pickles. **Pkt. 10c; ½ Oz. 40c**

**499 Sunnybrook Pimiento** (72 days)—Fine for home gardens, excellent flavor. Fruits are 2½ to 3 inches long and 3 inches in diameter. They are tomato-shaped, smooth with thick, mild flesh. **Pkt. 10c; ½ Oz. 40c**

## POP CORN

**451 South American Jumbo Hybrid**—The yellow pop corn that pops to such enormous size, creamy yellow color. Good yielder, 2 to 3 ears on a stalk, 6 to 7 inches long. **Pkt. 10c; ½ Lb. 40c; 1 Lb. 70c**

**450 White Hull-less**—Most popular white pop corn. Small, short ears. Pops snow-white, absolutely without hulls, very fine quality. **Pkt. 10c; ½ Lb. 25c; 1 Lb. 45c**

## MUSKMELON (Cantaloupe)

**One Packet will sow 15 hills; 1 Ounce 60 hills.**

**472 Early Delicious** (75 days)—Outstanding because of its very early maturity, the first melon of the season. Fruits are 3 to 4 pounds with thick, orange, delicious flesh. Very good flavor and quality. **Pkt. 10c; 1 Oz. 30c; ¼ Lb. 75c**

**470 Hales Best** (87 days)—Thick, tender flesh is deep salmon and richly flavored. Oval fruits weigh 4 pounds. **Pkt. 10c; 1 Oz. 30c; ¼ Lb. 75c**

**\*471 Hearts of Gold** (88 days)—The salmon-orange flesh is very thick and good right out of the rind. The fruits are tender, juicy and very sweet. This melon weighs about 4 pounds. It is the most popular muskmelon for general use. **Pkt. 10c; 1 Oz. 30c; ¼ Lb. 75c**

**474 Rocky Ford Netted Gem** (95 days)—A fine home and market garden melon, weighing about 2½ pounds. Uniform size, nearly round, thick green flesh with a spicy flavor. **Pkt. 10c; 1 Oz. 30c; ¼ Lb. 75c**

## WATERMELON

**One Packet will sow 10 hills; 1 ounce 30 hills.**

**\*480 Early Kansas Sweet** (85 days)—A very large medium early melon, fine for home gardens. Thin green-striped rind, bright red flesh of very fine sweet flavor. Seeds are reddish-brown. Weighs about 40 pounds. This is one of our finest melons and we recommend it. **Pkt. 10c; 1 Oz. 25c; ¼ Lb. 60c**

**\*477 Imp. Kleckley Sweet No. 6** (87 days)—Many consider this the best watermelon. Weighs about 35 pounds, white seeds. Has bright red flesh which is crisp, tender and very sweet. Wilt resistant strain. **Pkt. 10c; 1 Oz. 25c; ¼ Lb. 60c**

**475 New Hampshire Midget**—Just right for the refrigerator, 7 to 8 inches long with very sweet, rich red, juicy flesh. Outstanding new melon for small gardens. Extremely early—try it. **Pkt. 15c; 1 Oz. 50c**

**478 Stone Mountain** (86 days)—The large, round, solid dark green melons are very popular. Ripens medium early and has a very delicious flavor with lots of heart. Weighs 30 to 40 pounds. **Pkt. 10c; 1 Oz. 20c; ¼ Lb. 50c**

## PARSLEY

**487 Moss Curled** (72 days)—The most desirable for garnishing and decorative purposes. Dark green, finely cut curled leaves. Very fast growing. Cut it and it comes up again. **Pkt. 10c; ½ Oz. 18c**

## PEANUTS

**489A Peanuts, Early Spanish**—The pods are smaller than the Jumbo but they will mature as far north as Minnesota. **Large Pkt. 10c; ½ Lb. 30c; 1 Lb. 55c**

**489 Peanuts, Jumbo**—The large standard roasting peanut. Stands heat and drought. **Large Pkt. 10c; ½ Lb. 30c; 1 Lb. 55c**

## ONIONS

**One Packet will sow 12 to 15 feet; 1 Ounce 200 feet.**

**481 Large Red Wethersfield** (110 days)—The favorite red onion. Flat, solid medium large bulbs that keep well. **Pkt. 10c; ½ Oz. 40c; 1 Oz. 70c**

**483 Southport White Globe** (115 days)—The best and most popular white onion. The bulbs are medium large, crisp, mild and have snowy white flesh. Good keeper, heavy yielder. **Pkt. 10c; ½ Oz. 40c; 1 Oz. 70c**

**485 Yellow Globe Danvers** (111 days)—White flesh, crisp and very fine quality. Firm and solid, this is the best keeping yellow onion. Very productive. **Pkt. 10c; ½ Oz. 40c; 1 Oz. 70c**

## PEAS

**One Pkt. will sow 15 feet; 1 Lb., 100 feet.**

All of these Peas grow only around 18 inches tall and do not have to be supported. When you order Peas be sure and include 15c for a packet of Nitragin to inoculate the Pea and Bean seed. 1 Pkt. is enough for 3 to 4 pounds.

**\*490 New Alaska** (54 days)—This is the kind to plant for those first Peas from your garden. This is an improved strain with larger pods, better flavor and very productive. Smooth seeded, it can be planted very early. **Big 3 Oz. Pkt. 12c; ½ Lb. 23c; 1 Lb. 40c**

**492 Imp. American Wonder** (60 days)—A popular early pea. A good bearer of tender, sweet flavored peas. Grow only 12 to 15 inches tall. **Big 3 Oz. Pkt. 15c; ½ Lb. 30c; 1 Lb. 50c**

**\*491 Early Bird** (60 days)—One of the earliest large podded semi-wrinkled peas. Sturdy vines bear an abundance of dark green pods, filled with good quality peas. **Big 3 Oz. Pkt. 15c; ½ Lb. 30c; 1 Lb. 55c**

**901 Freezonian** (63 days)—All-America Bronze Medal Winner especially recommended for freezing. Vines are 30 inch, dark and medium heavy with 3½ inch pods filled with large wrinkled peas. Wilt Resistant. **Big 3 Oz. Pkt. 15c; ½ Lb. 30c; 1 Lb. 50c**

**494 Laxton's Progress** (62 days)—The earliest and heaviest yielding of the large podded peas. The pods are very large, with big, plump peas of the finest flavor. Very popular. **Big 3 Oz. Pkt. 15c; ½ Lb. 30c; 1 Lb. 50c**

**\*495 Little Marvel** (62 days)—Our most popular wrinkled variety and the most satisfactory kind in the average home garden. It is very hardy and can be planted almost as early as New Alaska. Very productive, the pods are filled from end to end with the delicious, tender peas. **Big 3 Oz. Pkt. 15c; ½ Lb. 30c; 1 Lb. 50c**

**902 Victory Freezer** (65 days)—A new variety we are proud to list for freezing and an All-America Bronze Medal Winner. Vines are 29-inch, heavy with double pods 3-3½ inches long. Medium size peas, dark green and wrinkled. Wilt Resistant. **Big 3 Oz. Pkt. 15c; ½ Lb. 30c; 1 Lb. 50c**

## RADISHES

**One Packet will sow 30 feet; 1 Ounce, 100 feet.**

Sow every 2 weeks for a continuous supply of fresh radishes all season.

## DOUBLY GUARANTEED

1. Guaranteed to please you when you get the bulbs.
2. Guaranteed to please you when they bloom this summer.

Gladiolus are the finest of all flowers for cutting and so easy to grow. Customers from coast to coast have written us telling how delighted they are with this collection. We believe it is the finest mixture in all America. It is strictly high-class, hand-made by us from fine named varieties. When they bloom this summer you will recognize many of the varieties pictured and described on pages 67 to 72. It contains all the gorgeous Gladiolus colors, from white to almost black, with many shades of red, pink, yellow, lavender, purple, orange, blue, and the lovely blends. The flowers are large, 4 to 6 inches across, many ruffled, on tall sturdy stems. The bulbs are first-quality, state inspected and measure one inch or more across (diameter). Glads are so easy to grow, all over America. Just plant them in ordinary soil, 5 inches deep. Make your first planting in early April. Then plant at 2 week intervals until middle of July. You will have flowers from mid-June to frost. Easy-to-follow Planting Instructions sent with each order. Plant plenty, how handy it is when you can go out in your own garden for a needed bouquet. Also, why not send a collection to a relative or friend? Just send us the name and address and we will ship direct, postpaid and enclose gift card with your name.

# America's Finest New Phlox

From our field of Phlox, the largest in America, over 500,000 plants in bloom, we selected these as the very best. They are truly superb, with flowers almost twice as large as pictured. Our husky No. 1 field-grown plants will bloom freely for you this summer and for years to come. Grow in sun or part shade, 24 to 30 inches tall.
